Albania	345 000	90 000	250 000	0	0	-	May 2019	No reimbursement claims to be addressed to the EC
Austria	0	0	0	0	0	-	-	-
Bosnia and Herzegovina	0	24 184	0	0	0	-	-	Counts on the EC to provide vaccine in case of re-emergence of LSD.
Bulgaria	773 100	835 000	0	200 000 from Hungary	A public procurement order is scheduled in 2019 for 835 000 vaccine doses to ensure vaccination in 2020	-	End of March 2019	
Croatia	0	0	0	0	0	-	-	Vaccination ceased since January 1, 2018
Cyprus	0	0	0	0	0	-	-	
Greece	700 000	198 211 ⁽¹⁾	0	0	600 000 doses for 2019 according to the contract with the company selected (if required, an additional 600 000 doses can be provided up to the end of the year)	In three partial deliveries, the first one expected during the first 10 days of March 2019	01/01/2019	⁽¹⁾ The number of LSD doses in stock from previous year is actually less due to the ongoing vaccination and incomplete updating registration of remaining doses

Hungary	0	200 000	0	0	0	-	-	The currently available stock is to be delivered to Bulgaria.
Israel	100 000	75 000	0	0	25 000 doses to be purchased South Africa			
Kosovo*	250 000	60 000	190 000	0	0	01/04/2019	05/04/2019	A part of the remaining doses expires in September and will be used by then, the expiry date for the rest is in 2020. No reimbursement claims to be addressed to the EC.
Montenegro	100 000	20 000	80 000	0	0	April 2019	01/05/2019	No reimbursement claims to be addressed to the EC.
tfYRo Macedonia	150 000 to 160 000	57 675	150 000	0	0	May 2019	01/03/2019	A first shipment of 100 000 doses was received on 25 February from the vaccine bank. A part of the 57675 remaining doses have an expiry date in June 2019. No reimbursement claims to be addressed to the EC.
Romania	0	0	0	0	0	-	-	No plans for vaccination in 2019 unless there are LSD outbreaks in the country
Serbia	600 000	400 000	600 000	0	600 000	01/05/2019	01/04/2019	Only the calves born after the last vaccination campaign will be vaccinated in the northern part of the country in 2019, once they are more than 6 months old; all cattle will be vaccinated in the rest of the country. As an alternative to the procurement, the EC is also looking into the possibility to provide the requested 600 000 doses from the vaccine bank.
Turkey	16 724 155	0	0	0	13 673 203	April 2019	it will be done by 30 th June	The remaining 300 000 doses needed in 2019 will be produced by the Pendik Veterinary Institute. The vaccine used in Turkey will still be heterologous, but administration will be increased in 2019 to 5 times the usual dose for small ruminants.

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244 and the ICJ Opinion on the Kosovo Declaration of Independence
