# PVS Pathway Think Tank Forum

Oie

WORLD ORGANISATION FOR ANIMAL HEALTH  
*Protecting animals, preserving our future*

OIE PVS Pathway "Think Tank" Forum  
4 - 6 April 2017 Paris, France

# PVS Pathway Think Tank Forum

# PVS PATHWAY EVOLUTION >>> PVS

adapting for an even brighter future of improving animal health and welfare globally

## SUCCESS FACTORS TO MAINTAIN

- Voluntary
- Country-driven
- Participatory
- Collaborative
- Supportive
- Broadly systems-based
- Established methods and tools
- In-depth, using field evidence
- Knowledgeable experts
- Promotes longer term sustainable change
- Founded on OIE international standards

## ENABLERS

- Political will from countries who:
  - engage through an official PVS request
  - have a clear understanding of the PVS processes, options and requirements before the mission
  - ably prepare for and support the mission
  - respond positively to PVS recommendations (such as via integration into country strategic planning)
- Support of donors and partners, both for OIE's PVS Pathway delivery and their own use of results
- Leadership and management development
- Training, targeting all of the above

## KEY DIRECTIONS

### CONTEXT

For the past 10 years, the PVS Pathway has strengthened Veterinary Services in more than 140 countries, leading to improved government and donor resourcing, clearer governance structures and national coordination, and improved inter-sectoral and stakeholder collaboration. Through the PVS Pathway, these countries have enhanced their animal and veterinary public health surveillance, disease control, emergency response, border control, food safety, laboratory, educational, legislative and animal welfare systems.

### THINK TANK FORUM

The biggest risk with successful, established programmes like the OIE PVS Pathway is complacency. To mark the ten-year milestone, a Think Tank Forum was held at the OIE Headquarters in Paris, in April 2017. The Forum brought together a diverse group of 74 PVS Pathway stakeholders — member countries, donors, partners, OIE staff and PVS experts to review the programme's success, build on lessons learned and collectively set directions for an enhanced and expanded PVS Pathway of the future.

### ENHANCED ENGAGEMENT OPTIONS

- Raising the PVS Pathway Profile: elevating results from technical to strategic
- Tailoring PVS engagement options based on governance and technical needs:
  - ✓ PVS self-evaluation
  - ✓ PVS strategic planning support
  - ✓ PVS specific content (e.g. PPR, AMR)
  - ✓ PVS national specialists
  - ✓ PVS/International Health Regulations linkages

### KEY PRODUCTS:

- Training and two-way consultation to guide country PVS engagement options
- New OIE guidance/expertise to service the options

### ADVOCACY AND RESOURCING

- Increasing PVS profile beyond the technical
- Linking PVS to international agendas (One Health, food security, SDGs, aid effectiveness) to spur high-level support of VS
- Aligning country priorities/ownership with donor project support, through PVS, against international standards at the systems level
- Formalising regional PVS partnerships via Regional Economic Communities

### KEY PRODUCT:

- PVS Pathway Business Plan targeting resourcing

### GOVERNANCE AND LEVERAGING

- Leading and managing PVS evolution via a PVS Secretariat
- Engaging OIE regional offices to better support all PVS phases
- Breaking down silos to leverage use of PVS results across the OIE mandate
- Facilitating strategic analysis of PVS reports
- Updating the PVS Expert Pool and modernising HR aspects

### KEY PRODUCTS:

- Guidance/planning for OIE regional office support
- PVS report analysis and/or usage protocols specific to each OIE Department

### TECHNICAL TRAINING AND DELIVERY

- Delivering a PVS Training Strategy with three training elements:
  1. Basic (targeting countries): Enhance country ownership, preparation and use, potentiate PVS self-evaluation, and widen expert pool
  2. Staff (targeting regions and HQ): Enhance PVS support and use by the OIE, with a focus on report analysis to support all elements of the OIE mandate
  3. Specialised (targeting experienced experts): Capacitate delivery of the new forms of PVS support to countries (e.g. PVS/IHR linkage, strategic planning, specific content)
- Integrating new expertise (e.g. management, leadership, strategic, financial)
- Minor "tweaks" to basic PVS methods (e.g. Tool, Gap, baseline docs)

### KEY PRODUCT:

- PVS Pathway Training Strategy

**PVS Pathway – a flagship of the OIE's core mandate**

# OIE PVS and WHO IHR Linkages

- JEE missions in Europe in 2016
  - Albania (September 5-9), Armenia (August 15-19), Kyrgyzstan (November 28 - December 2), Turkmenistan (June 6-10).
- Involvement in JEE missions in Europe

| JEE targeted country | Dates               | Expert |
|----------------------|---------------------|--------|
| Slovenia             | June 5-9 2017       | Yes    |
| Belgium              | June 19-23 2017     | Yes    |
| Finland              | March 27-31 2017    | No     |
| Switzerland          | Oct 30 – Nov 3 2017 | No     |
| Liechtenstein        | Oct 30 - Nov 3 2017 | No     |
| Latvia               | May 8-12 2017       | No     |

# OIE PVS and WHO IHR Linkages

---

- IHR/PVS National Bridging Workshops (NBWs)
  - 8 NBWs done so far worldwide
  - WHO and OIE has funding for 30 NBWs
- Azerbaijan pilot workshop in 2014
- Interest from some Members of the Region, but no NBW planned so far
- WHO/OIE Agreement for funding a staff in the Regional Activities Department to support IHR/PVS Linkages

# Conclusion

---

- Report of the PVS Pathway Think Tank Forum soon available on the OIE website
- Next edition of the OIE Bulletin with PVS Pathway thematic – January 2019
- Countries are invited to renew their engagement with the PVS Pathway and take advantage of the new options
