United Nations

Standing Group of Experts on ASF in Europe
under the GF-TADs umbrella

15th meeting (SGE ASF15)

06 May 2020

ASF SITUATION
from 10 September 2019 to 05 May 2020

BELGIUM

Wild boar surveillance

In the zones of the country considered free until at least the beginning of the period

Wild boar found dead

| Period considered (<i>ideally 10 September to 05 May 2020</i>) | N° wild boar found dead | % PCR positive | % seropositive |
|------------------------------------------------------------------|-------------------------|----------------|----------------|
| 10 September to 5 May | 106 | 0% | - |

Wild boar hunted

| Period considered (<i>ideally 10 September to 05 May 2020</i>) | N° wild boar hunted | % PCR positive | % seropositive |
|------------------------------------------------------------------|---------------------|----------------|----------------|
| 10 September to 5 May | 34476 | 0% | - |

In the zones of the country already considered affected at the beginning of the period

Wild boar found dead

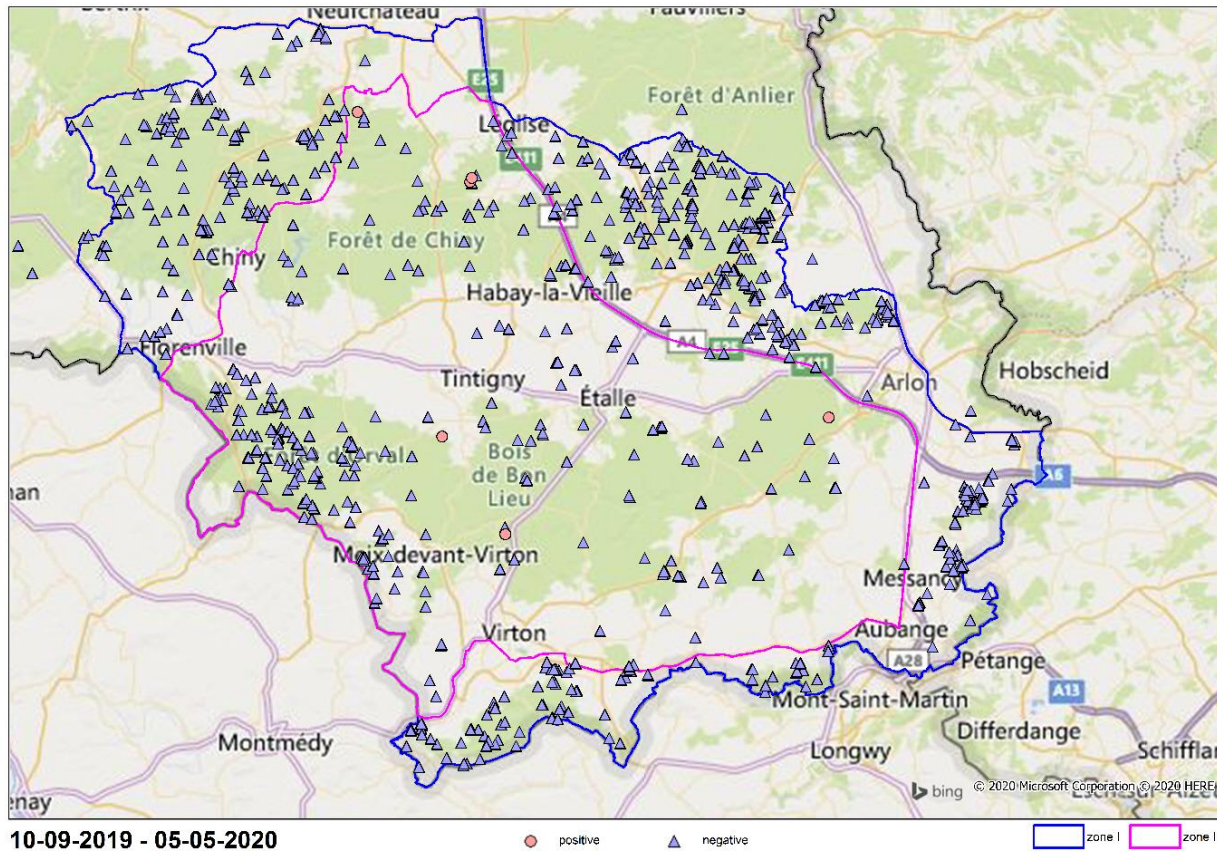

| Period considered (<i>ideally 10 September to 05 May 2020</i>) | N° wild boar found dead | % PCR positive | % seropositive |
|------------------------------------------------------------------|-------------------------|---------------------------|----------------|
| 10 September to 5 May | 208 | 2% (6 cases all bones) | - |

Wild boar hunted

| Period considered (<i>ideally 29 May to 10 September</i>) | N° wild boar hunted | % PCR positive | % seropositive |
|-------------------------------------------------------------|---------------------|----------------|----------------|
| 10 September to 5 May | 1397 | 0% | - |

Cases in wild boar – country map

Period considered (*ideally 10 September 2019 to 05 May 2020*):
6 cases -> all bones

Standing Group of Experts on ASF in Europe under the GF-TADs umbrella

Domestic pigs surveillance

In the zones of the country considered free until at least the beginning of the period

| Period considered (<i>ideally 10 September to 05 May 2020</i>) | N° suspicions Commercial farms / backyards | N° confirmed outbreaks Commercial farms / backyards |
|------------------------------------------------------------------|-----------------------------------------------|--------------------------------------------------------|
| 10 September to 5 May | 0/1 | 0/0 |

In the zones of the country already considered affected at the beginning of the period

| Period considered (<i>ideally 10 September to 05 May 2020</i>) | N° suspicions Commercial farms / backyards | N° confirmed outbreaks Commercial farms / backyards |
|------------------------------------------------------------------|-----------------------------------------------|--------------------------------------------------------|
| 10 September to 5 May | 0/0 | 0/0 |

Outbreaks in domestic pigs – country map

Period considered (*ideally 10 September 2019 to 05 May 2020*):

No outbreaks in domestic pigs !

ASF surveillance during Covid19 crisis

Impact on the surveillance in domestic pigs :

None

-> activities related to mandatory notification, inspection visits and enhanced passive surveillance are maintained - while respecting the rules of physical distancing and good hygiene practices

Impact on the surveillance in wild boar :

See presentation A. Linden

THANK YOU
