# Outbreaks in domestic pigs – country map

Period considered (*ideally 05 May 2020 to 19 November 2020*): 101

# How COVID 19 effects on ASF control and eradication measures

Period considered (): Between June and and of October most of the restrictions has been suspended.

All necessary activity to eradicate ASF in wild boars and pigs were performer with only exeptional problems.

But since second half of October till now the No. of human cases have been significantly increased.

The appearing problems concern:

1. The need to isolate of sick employees or quarantine our personel in caase of having the contact with sick persons,
2. The owner s concerns to introduce the virus by officials entering the holding.

# THANK YOU
