Wild boar hunted

Period considered (ideally 29 May to 10 September)	N° wild boar hunted	% PCR positive	% seropositive
November 2020 – June 2021	8684	1,55	n/a

Cases in wild boar – country map

Period considered (*November 2020 to June 2021*):

Domestic pigs surveillance

In the zones of the country considered free until at least the beginning of the period

Period considered *(November 2020-june 2021))*	N° suspicions Commercial farms / backyards	N° confirmed outbreaks Commercial farms / backyards
November 2020 - June 2021	0 / 0	0 / 0

In the zones of the country already considered affected at the beginning of the period

Period considered *(November 2020-june 2021)*	N° suspicions Commercial farms / backyards	N° confirmed outbreaks Commercial farms / backyards
November 2020 - June 2021	0 / 0	0 / 0

Standing Group of Experts on ASF in Europe under the GF-TADs umbrella

How COVID 19 effects on ASF control and eradication measures

Period considered (*November 2020-june 2021*):

Despite the hard times during the COVID-19 pandemic and the lack of human resources the BFSA manage to continue with the implementation of the national plan and keep on going on the following actions:
- Gradual repopulation of the ASF affected industrial holdings and restoration of the production;
- Significant efforts put into biosecurity improvement – concept, procedures and infrastructure investments;
- Enhanced official controls system in place;
- Passive surveillance system in place;
- Backyard holding action plan in operation;

Outbreaks in domestic pigs – country map

The last outbreak of domestic pigs on the territory of Republic of Bulgaria was on 1 October 2020 in the region of Lovech ADNS 2020/19.

ASF outbreaks in 2020
- ○ backyard
- ● family farm
- ● industrial farm
- ● East-Balkan pigs herd
