

## Webinar on WOAHP procedure for the publication of self-declarations of animal health status 13 October 2022

### Objectives

- To guide the participants on the process for the publication on the WOAHP website of a self-declaration of animal health status;
- To enhance the understanding of participants on the procedure and the necessary information to submit when preparing a self-declaration;
- To share experiences between countries that had their self-declarations published by WOAHP and countries that are interested in submitting a self-declaration for publication;
- To provide participants with an opportunity to share, with WOAHP and other Members, their experience of using self-declarations;
- To discuss how the procedure could be improved to better serve Members' needs;
- To provide participants with information on indicators of interest (example: numbers, disease) relevant to self-declarations submitted by Members of the EU and EFTA.
