# Stray dog survey

# WSPA method

## Surveying roaming dog populations: guidelines on methodology

*Discussion document: feedback welcomed through discussion group at  
<http://groups.google.com/group/dog-population-survey-guidelines>.*

**Aim:** The aim of this document is to provide detailed guidance on how to carry out a count of dogs roaming in public areas, as the basis for planning or evaluating a dog population management intervention. There is also additional discussion on potential methods of monitoring the dog population once the intervention has begun and temporary or permanent marking of dogs becomes suitable. The methods selected have been chosen because they require a minimal investment of resources and yet can provide reliable data.

## VACCINATED PETS AGAINST RABIES

<b>YEAR</b>	<b>Dogs</b>	<b>Cats</b>	<b>Ferrets</b>	<b>Total vaccinated</b>
<b>2016</b>	5	3	0	8
<b>2017</b>	851	100	0	951
<b>2018</b>	7469	479	0	7948
<b>2019</b>	26666	1220	0	27886
<b>2020</b>	12549	737	0	13286
<b>2021</b>	16964	1307	0	18271
<b>2022</b>	26935	1822	1	28758
<b>Up to 23.06.2023</b>	17584	976	0	18560
<b>TOTAL</b>	<b>109023</b>	<b>6644</b>	<b>1</b>	<b>115668</b>

## Country roadmap Key Actions

- Adopting relevant amendments of the Law of animal welfare (control on reproduction and registration of dog breeders)
- Issuing a National DPM strategy
- Establishment of a comprehensive monitoring and evaluation system on local level (stray dog surveys on a regular basis and monitoring of a set of measurable indicators)
