

THE OIE STANDARD SETTING PROCESS

Regional training seminar for OIE National Focal Points on Animal Welfare for the OIE European Region 18th –20th June 2019 The Hague, The Netherlands

> Fabien Schneegans OIE Sub-Regional Representative Brussels, Belgium

WORLD ORGANISATION FOR ANIMAL HEALTH Protecting animals, preserving our future

The OIE standard setting process:

- How it works?
- Who is involved?
- How your country can participate?

What standards are we talking

OIE Thereestrial Animal Health Code about? Terrestrial animal Health Code *Terrestrial Code Commission*

Manual of Diagnostic Tests and Vaccines

for Terrestrial Animals Laboratories Commission WORLD ORGANISATION FOR ANIMAL HEALTH Protecting animala, preserving cur juture

Manual of Diagnostic Tests and Vaccines for Terrestrial Animals (mammals, birds and bees)

WORLD ORGANISATION FOR ANIMAL HEALTH Protecting animals, preserving cur juture

> Aquatic Animal Health Code

Aquatic Animal health Code Aquatic Animals Commission

Manual of Diagnostic Tests for Aquatic Animals Aquatic Animals Commission

That OIE standard setting process is:

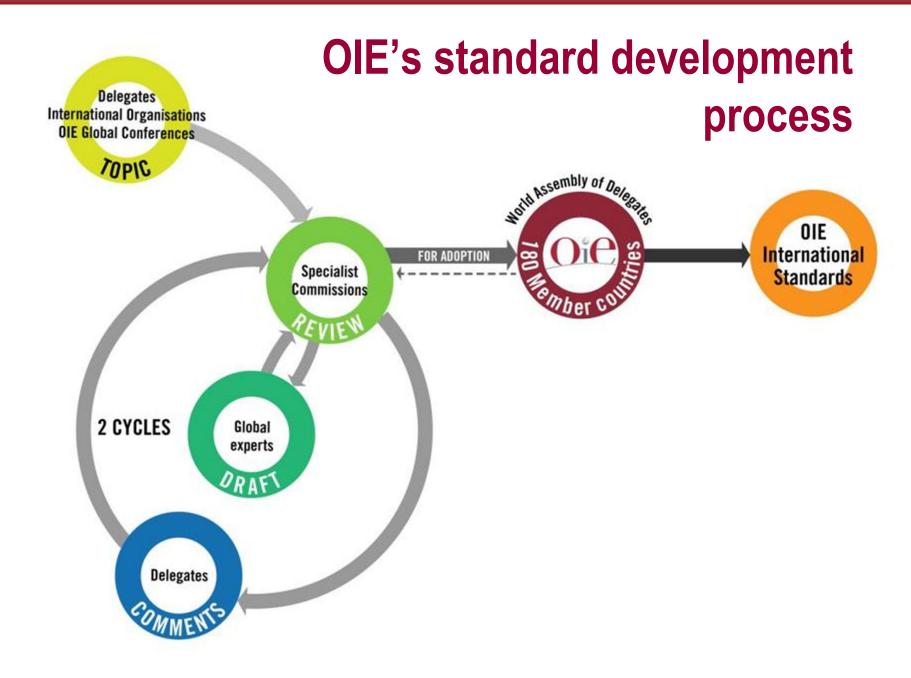

- Consensus based
 - Science based
 - Transparent

- OIE standards are adopted by the World Assembly of Delegates
- But there are a lot of 'actors' prior to adoption

The main actors include ...

- OIE experts: OIE Ad hoc Groups, Working Group, Reference Centre experts
- Regional and international organisations
- OIE Specialist Commissions
- OIE Delegates (and their National Focal Points)

Topic / Issue / problem identified by Delegates, OIE Specialist Commissions, international/regional organisations, industry, scientists....e.g.

- new scientific information, e.g. from research or disease outbreak
- new diseases emerging
- new approach to control, e.g. vaccination

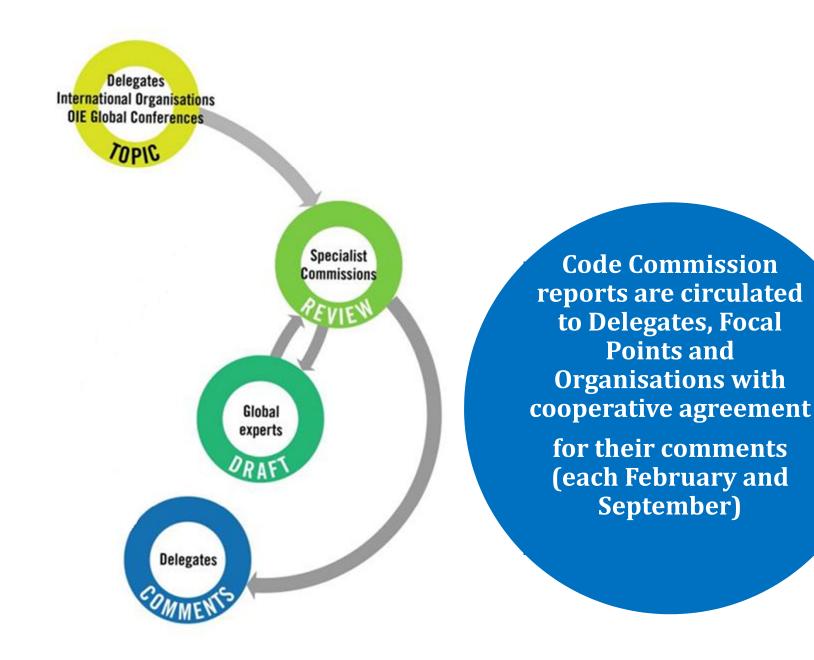

Specialist Commission develops new / revised text / chapter if:

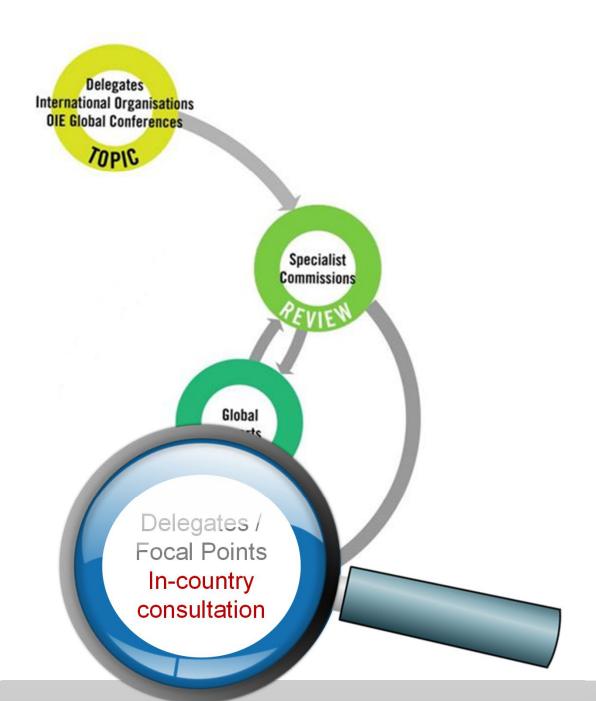

- scientific information is available
- fits with OIE's Strategic priorities
- wide support from Members

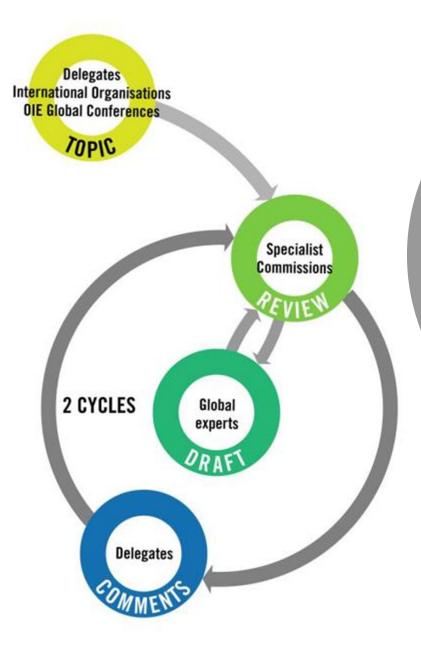

Specialist Commissions also use expertise in

Ad hoc Groups Working Group

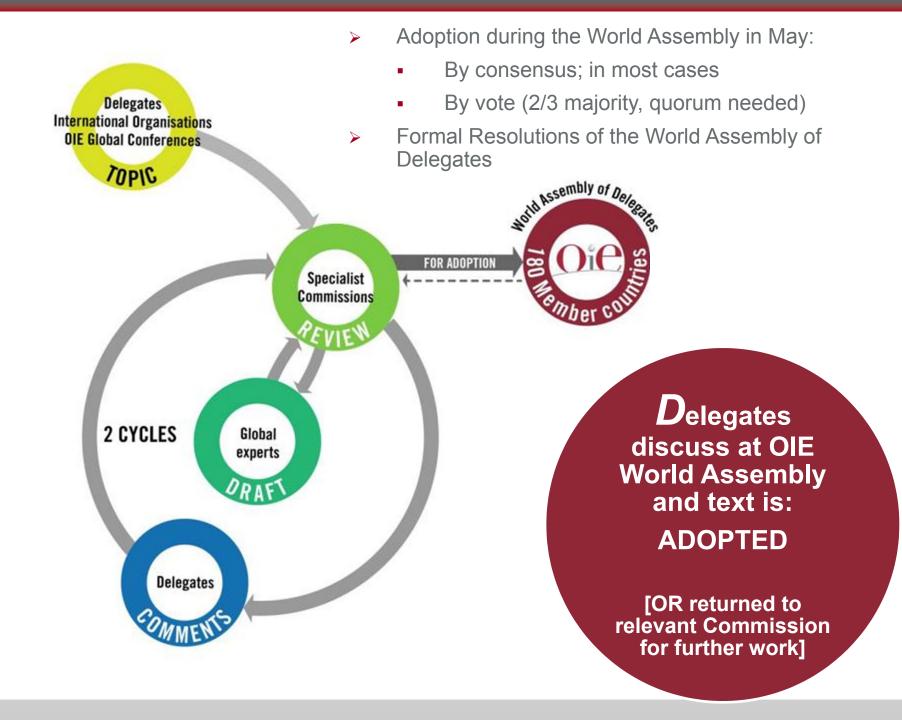

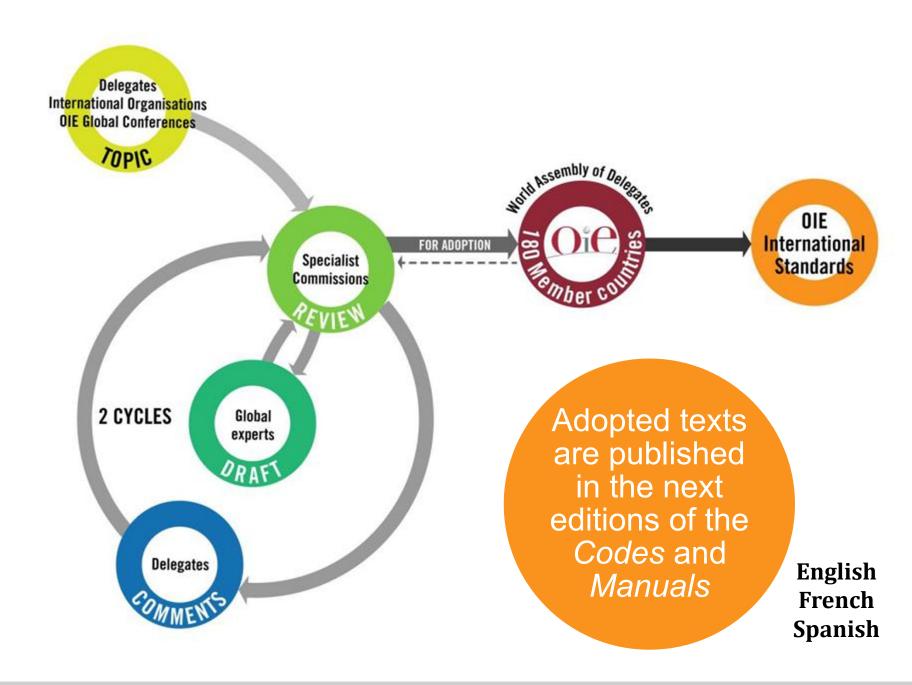

Code Commission reviews comments, revises text and recirculates for further

comment or proposes for adoption.

'Normally' two cycles to adoption is (2-4 years) Fast track can be 1 year

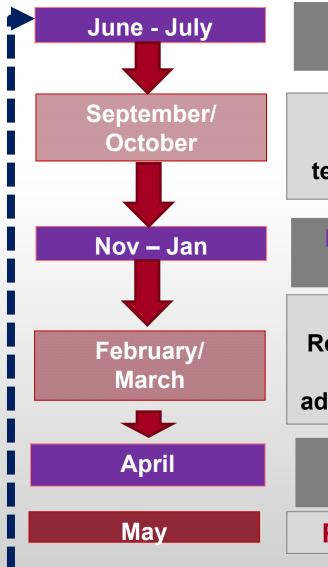

Annual calendar: OIE process

Annual calendar: country involvement

Members review <u>February</u> Code Commission report (part B) and submit comments

Meeting of Code Commission Review of comments received and revision of texts; report sent to Members with revised drafts (parts A and B)

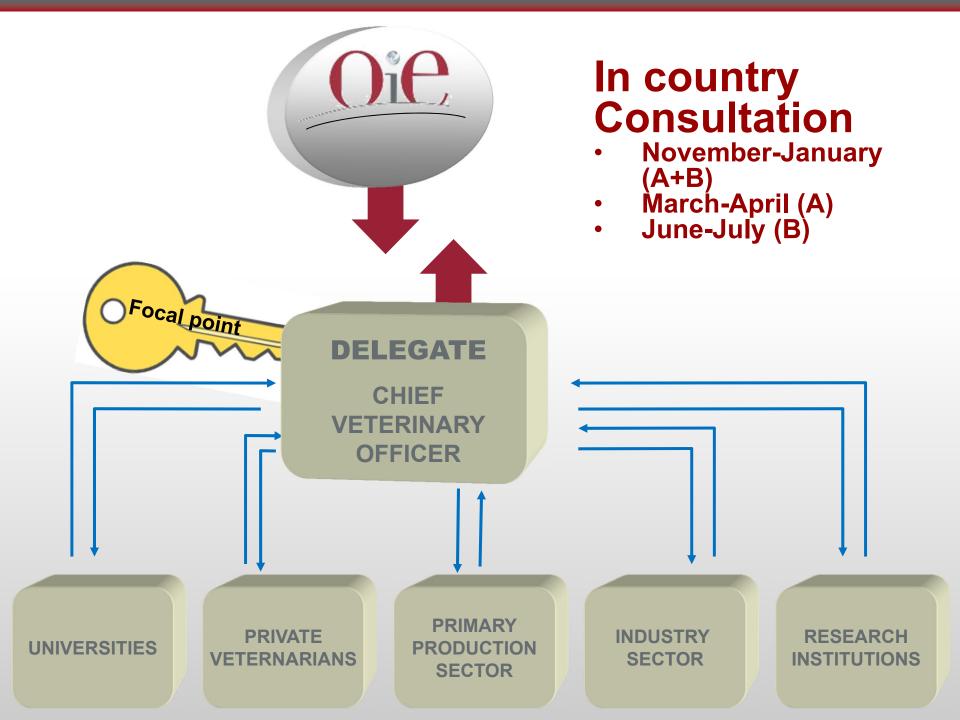

Members review <u>September</u> Code Commission report (parts A and B) and submit comments

Meeting of Code Commission

Review of comments received & revision of texts; report sent to Members with revised texts for adoption in May (Part A) + for further discussion in the next cvcle (Part B)

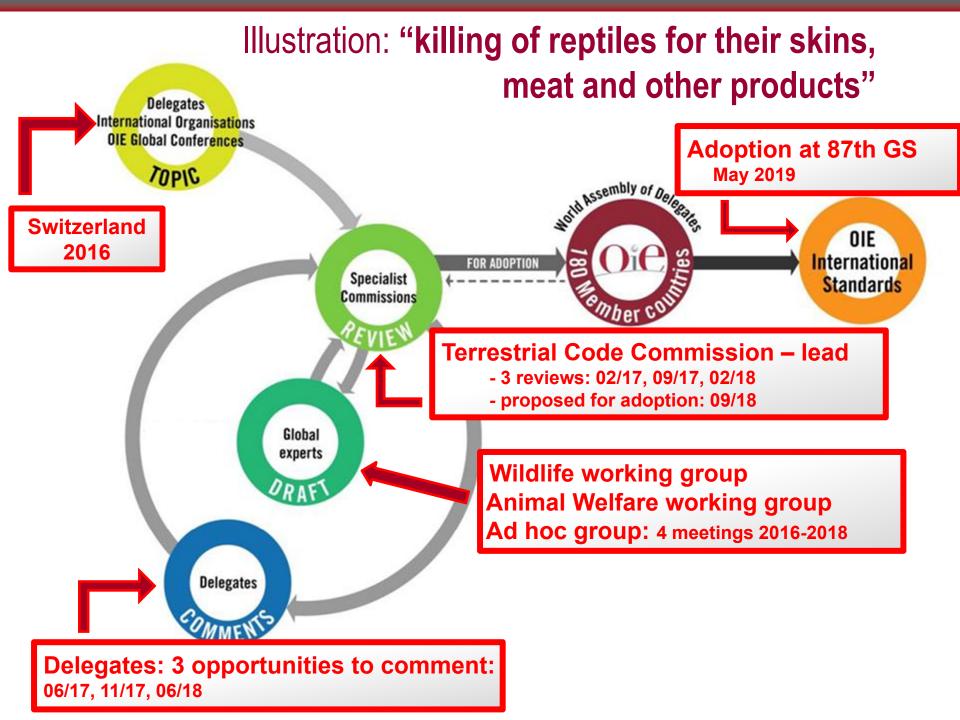

Members review <u>February</u> Code Commission report (part A), submit comments and develop

Proposal and adoption at General Session

A few tips to help you get organized to

- Keep aware of the work programme of the Code Commission (annex of the last report) – part of your job as NFP!
- Keep close contact with your Delegate, so that you can be informed immediately of the release of the informal report [EN only]
- Keep an active watch October and March of the OIE website to capture the formal report [EN, FR, ES] without delay
- Deadlines and instructions on how to draft comments are in the INTRO part of the report – read carefully and comply in order to submit powerful comments
- Deadline to comment: ~ 2 months in winter (parts A + B), 4 months in summer (part B) – no time to lose!
- Report is published in PDF, but your Delegate can ask the OIE for the WORD version – much more convenient to prepare drafting

Be involved, send comments!!!
