Questionnaire on Dog Population Management

Introduction

The WOAH and Istituto Zooprofilattico Sperimentale dell'Abruzzo e del Molise "G. Caporale" (IZSAM - WOAH Collaborating Centre for Animal welfare) jointly prepared a self-assessment questionnaire in the framework of the WOAH Platform on Animal Welfare for Europe for West Eurasia countries. This questionnaire was prepared in compliance with Chapter 2.7 of the WOAH TAIIC, relating to Dog Population Management.

Introduction

Benchmarking Analysis to assess the level of implementation of WHOIS Standards (Chapter 11 of the WHOIS Framework for Animal Health) (2022) based on a System for DTM questionnaires were selected for their significance in relation to the most problematic areas considered. Reports were then grouped into five different areas according to their significance in relation to main topics subject to investigation, as detailed in Table 1.

5 Areas for the benchmarking analysis

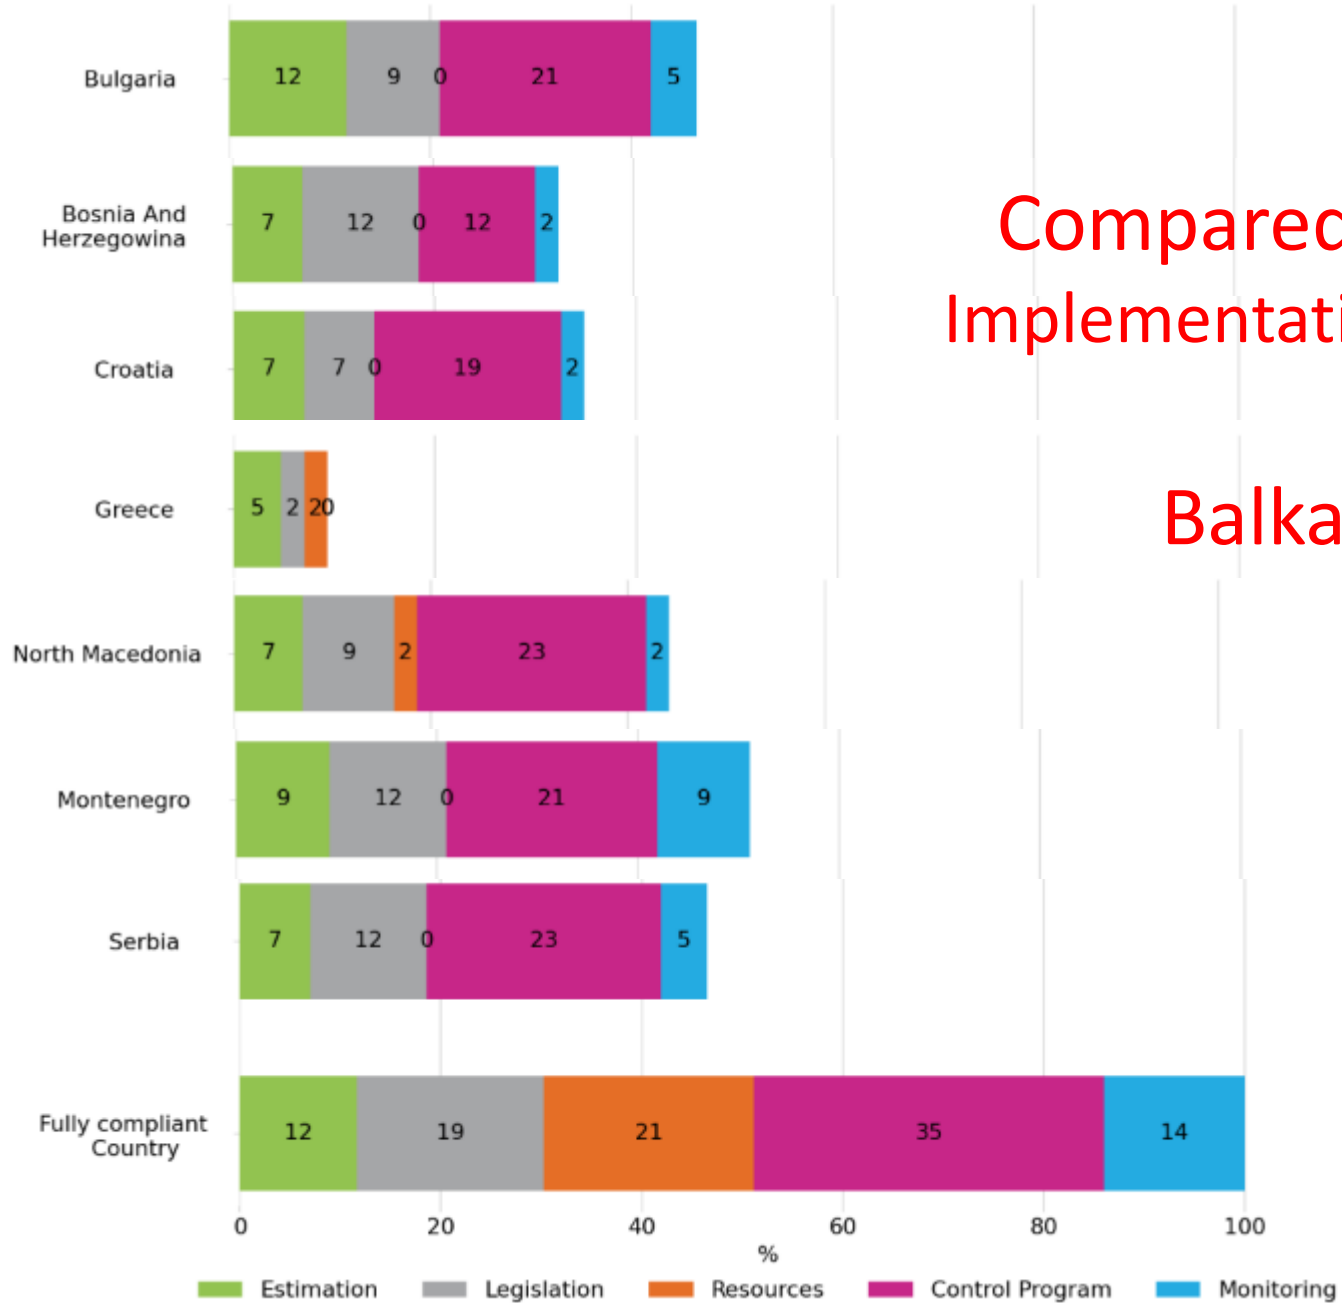

- 1. Identification of the country
- 2. Identification of the dog population
- 3. Identification of the dog population
- 4. Identification of the dog population
- 5. Identification of the dog population

Level of implementation of the Standards set in Chapter 11 of the WHOIS Framework
