VetStat

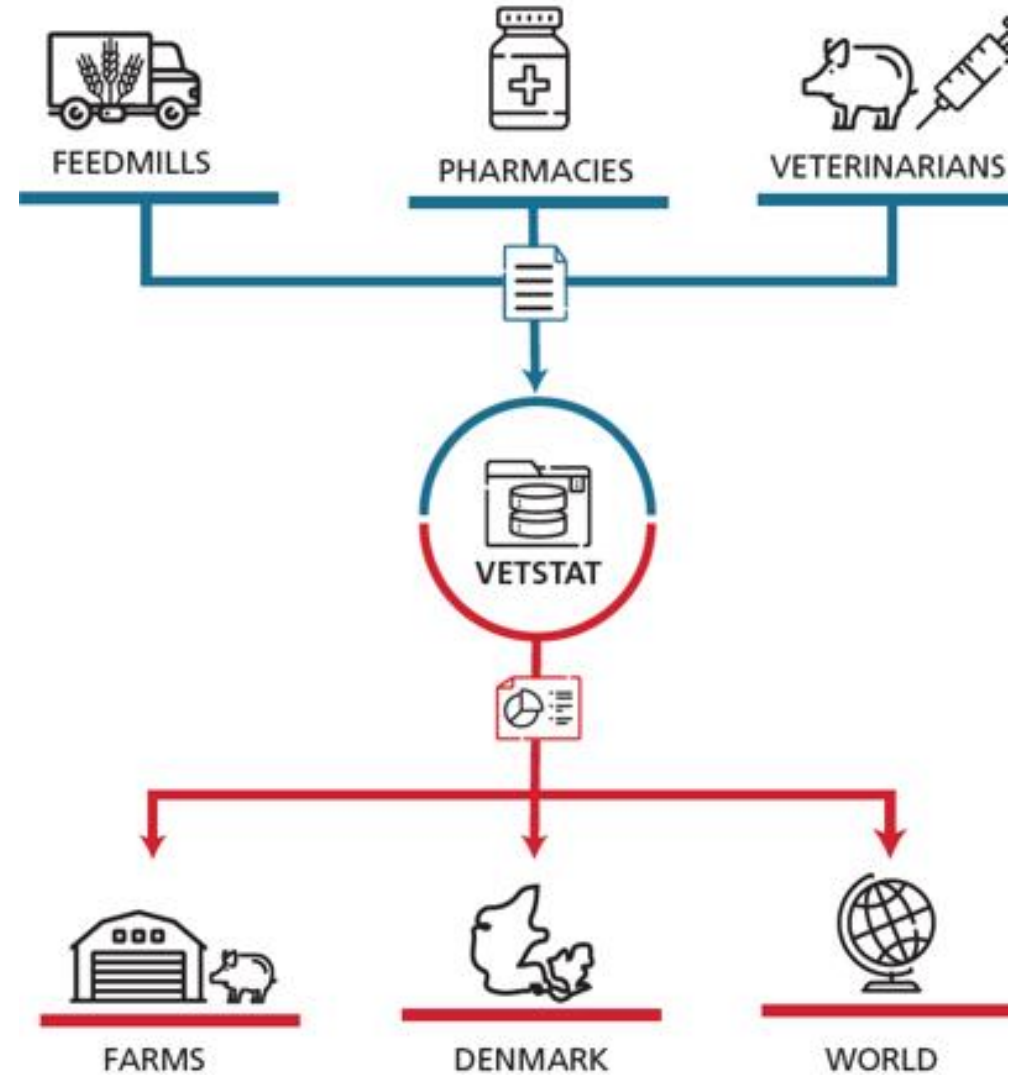

Belgrade 2023

Animal Welfare and Veterinary
Medicine Division

Special consultant, PhD. Cand. Agro
Laura Mie Jensen

Agenda

- **VetStat**
 - **Use data collection and monitoring**
- **Data as fundament**
 - **Farmers and veterinarians**
 - **Benchmarking of farmers**
- **Reduction goals driven by data**
 - **National**
 - **Industrial**
- **Reports**

1994
Monitoring of all use for humans

2010
Restriction: only simple penicillins for mastitis

1994
Herd Advisory Contracts
Vet's: No profit on VMP sale

Det Nationale Antibiotikaråd

2010
Yellow card initiative
Benchmarks for pigs and cattle

1995
DANMAP

2010
Pig industry ban on CIA: 3rd/4th cephalosporin

1995-1999
Industry ban on antimicrobial growth promoters

2000
National ban on AGP's

2013
Tax on antimicrobials

2000
VetStat data collection

2016-2017
New Yellow Card Initiative for pigs - risk of AMR

2002
Restriction on CIA: fluoroquinolon

2017
National One Health Strategy

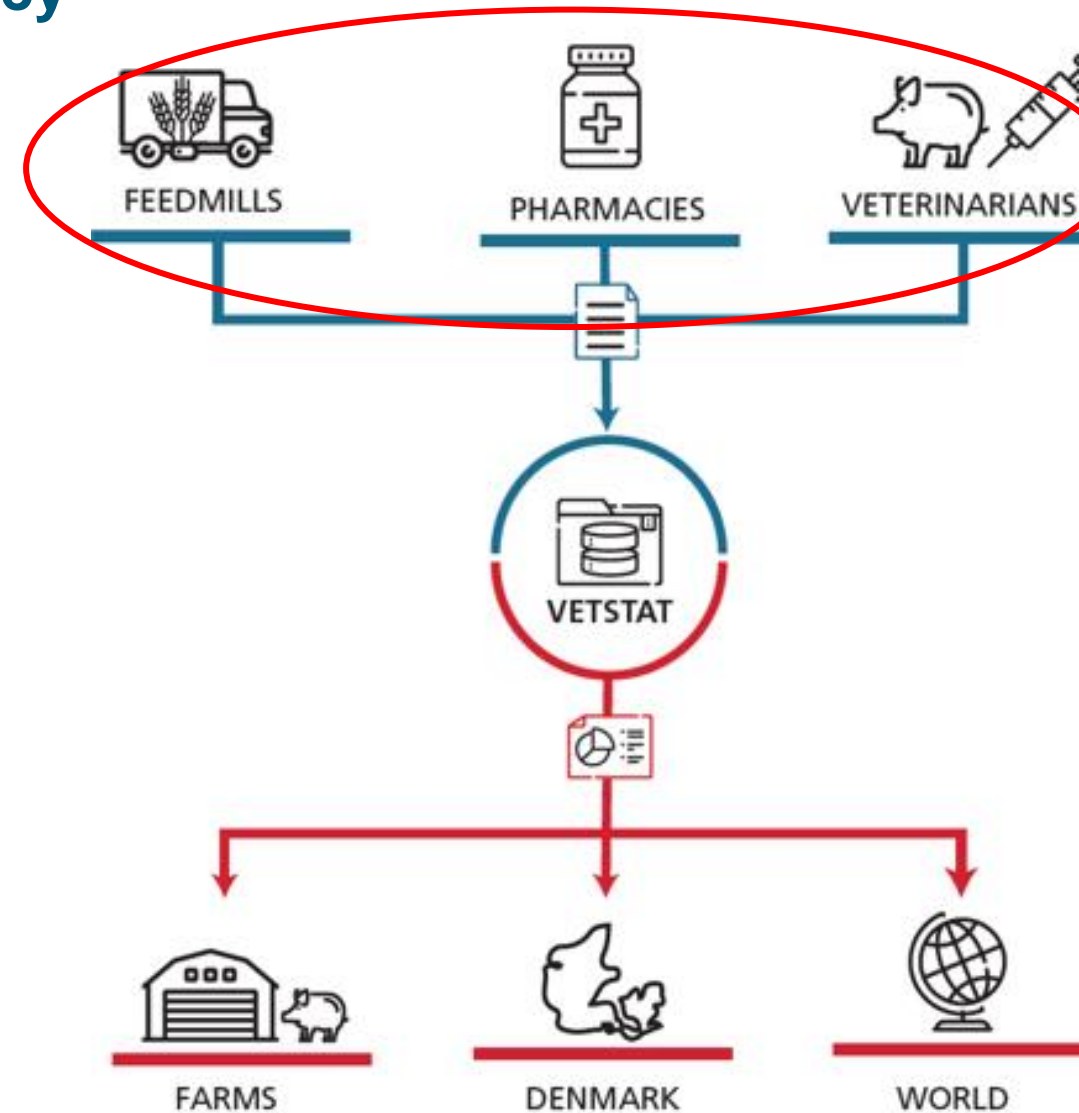

Majority of use data is collected at the pharmacy

Veterinary prescription

- Electronic / paper
- Pharmacy / Feed mill enter data to own system when medicines are sold
- Including most of the information from the prescription
- Send the data on a daily basis to VetStat
- Veterinarians enter data to own system or VetStat if medicines are used or given to farmer

Reporting of information to VetStat

- Vet identification (sender)
- Herd/owner/clinic identification (receiver)
- Product identification and amount
- Species identification and age group (farm animal/pet)
- Disease indication / anatomical group identification

Raw data is available for farmers and veterinarians

Access to the system and to data

- All farmers and veterinarians have access to own data
- They have editorial dashboard with key messages
- Access to all records and graphics
- Access to own and national statistics

Access to environmental data

- VetStat is open for all Danish and European citizens
- Access to all records – anonymized to active compound
- Access to herd and farm statistics
- Access to national statistics
