BEST NATIONAL PRACTISES OF ONE HEALTH IN EUROPE

Advancing One Health in Europe: Insights from France's
Multisectoral Coordination Mechanisms (governance and
leadership)

1. National coordination for One Health

Interministerial One Health Task Force

Set up in 2023 to bring together **agriculture, environment, health and research ministries** in order to develop a **prioritized roadmap** to ensure the **operational implementation** of the One Health approach

Committee for Monitoring and Anticipating Health Risks (COVARs)

- **Independent and multidisciplinary** (epidemiology, infectiology, veterinary, entomology, etc) **advisory body**
- **A "One Health" approach** of health risks related to issues affecting humans, animals, and climate change

Avis du Comité de Veille et d'Anticipation des Risques
Sanitaires

(COVARs)

8 juin 2023

Sur le RISQUE SANITAIRE de GRIPPE AVIAIRE lié à
L'INFLUENZA AVIAIRE HAUTEMENT PATHOGENE (IAHP)

Membres du Comité de Veille et d'Anticipation des Risques Sanitaires associés à cet avis :

Brigitte AUTRAN, Présidente, Immunologiste
Fabrice CARRAT, Epidémiologiste
Yvanie CAILLE, Association de patients
Simon CAUCHEMEZ, Modélisateur
Julie CONTENTI, Urgentiste
Annabel DESGREES du LOU, Démographe
Didier FONTENILLE, Entomologiste
Patrick GIRAUDOUX, Eco-épidémiologiste,
Mélanie HEARD, Politiiste en santé
Xavier de LAMBALLERIE, Virologue
Thierry LEFRANCOIS, Vétérinaire,
Roger LE GRAND, Vaccins,
Xavier LESCLURE, Infectiologue
Bruno LINA, Virologue
Véronique LOYER, Représentante des citoyens
Denis MALVY, Infectiologue
Céline OFFERLE, Association de patients
Olivier SAINT-LARY, Généraliste
Rémy SLAMA, Epidémiologiste

2. The importance of training and information

One Health Institute

INSTITUT ONE HEALTH

- Gathering three higher education institutions in the fields of **public health, life sciences** and **veterinary medicine** to cover **human, animal and environmental health**
- First training courses in June/September 2024 for both **public and private decision-makers**

One Health Mural

A key **collaborative game** designed to emphasize **the interconnections between human, animal, and environmental Health**

3. One Health monitoring

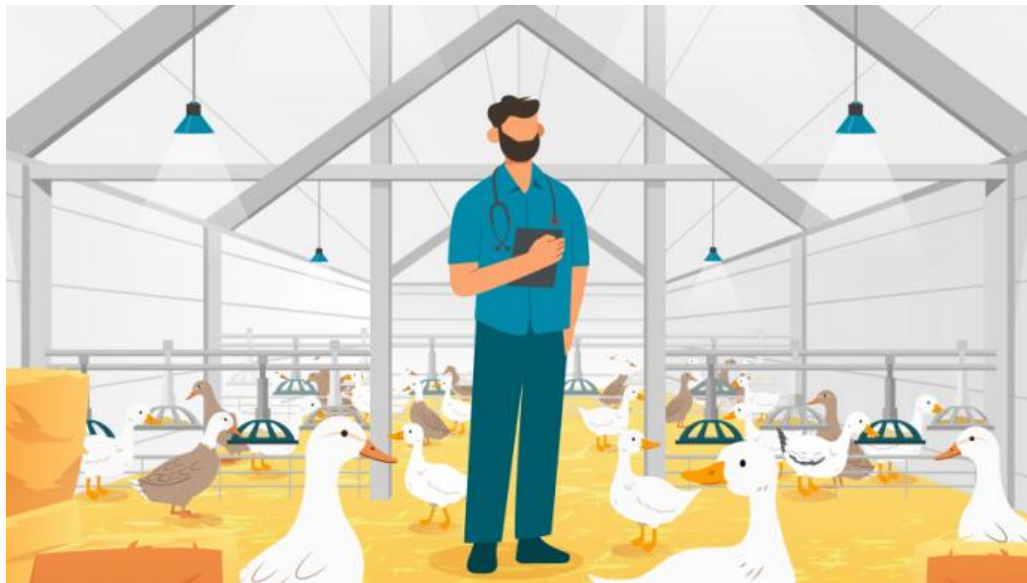

Three epidemiological monitoring platforms with a shared governance

- Three epidemiological monitoring platforms in **animal health, plant health** and food chain, linked by a "One Health" contract
- An **inter-platform coordination unit** to share data and standards

4. Preventing and tackling a One Health crisis

The example of human and animal vaccination against Highly Pathogenic Avian Influenza (HPAI)

- A **vaccination strategy** based on a recommendation of the Committee for Monitoring and Anticipating Health Risks (**COVARs**) in June 2023
- A national **vaccination campaign** targeting duck farms in October 2023
