# State vets

Around 12 000 vets in SSUFSCP

- in 24 Main administrations in region, Kyiv
- 394 state vet hospital in local level (city, district and regional)
- 1358 junior vet specialist (VPPs)

# Private vets

Licenses Issued, total 3281 from 2010 to 2024

# Strengths and challenges of Ukraine situation

---

- frequent reorganization of territorial bodies  
SSUFSCP (CA)
- lack methodology for assessing the needs of training  
vets: uncontrolled recruitment students on contract  
without the appropriate level of training and without  
taking into account the needs of the industry (farms,  
FBOs)
- basic human needs for security are violated (war  
impact)
- decrease in the number of livestock of animals and  
poultry with a constant number of veterinary  
faculties and graduates
