What WOAH listed diseases are important to your country?

92 responses

WOAH international standards are published in what four documents?

34 ✓

Terrestrial Animal Health Code

8 ✗

Codex Alimentarius

22 ✓

Manual of Diagnostic Tests for Aquatic Animals

23 ✓

Manual of Diagnostic Tests and Vaccines for Terrestrial Animals

2 ✗

ITA HS Code

28 ✓

Aquatic Animal Health Code

What WTO Agreements are relevant to the international trade regulatory framework for animal health?

24 ✓

Technical Barriers to Trade Agreement (TBT Agreement)

1 ✗

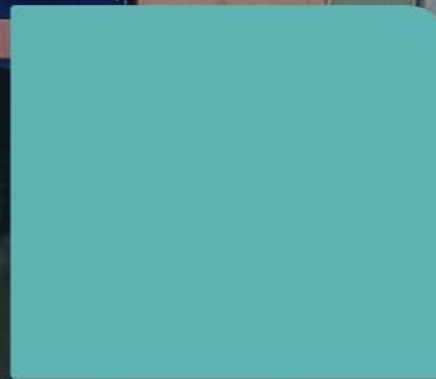

Agreement on Trade-Related Aspects of Intellectual Property Rights

4 ✗

General Agreement on Trade in Services (GATS)

17 ✓

Trade Facilitation Agreement (TFA)

31 ✓

Application of Sanitary and Phytosanitary Measures Agreement (SPS Agreement)

What sections in the WOAH Codes address aspects of trade associated with the principles in the WTO SPS Agreement?

15 ✘

Section 1. Animal disease diagnosis, surveillance and notification

20 ✔

Section 2. Risk analysis

20 ✔

Section 4. Disease prevention and control

31 ✔

Section 5. Trade measures, import/export procedures and veterinary certification

14 ✘

Section 6. Veterinary public health

4 ✔

Disease-specific chapters

Sections of the WOH Code that address trade aspects of the WTO SPS Agreement:

- Risk analysis (Section 2)
- Disease prevention and control (Section 4)
- Trade measures, import, export procedures and veterinary certification (Section 5)
- Disease-specific chapters (Sections 8-16 Terrestrial, 8-11 Aquatic)

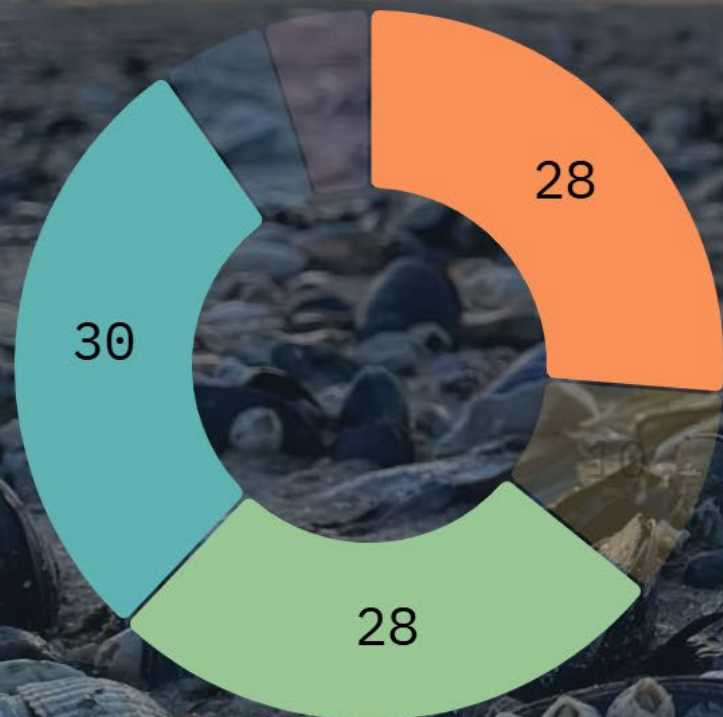

How do the WOAH Manuals enable safe trade in animals and animal products?

- 7 Provide details on field operationalisation of recommendations in the WOAH Codes
- 19 Provide details of internationally agreed diagnostic laboratory methods and requirements of vaccines and other biological products.
- 6 Provide details on diagnostic laboratory methods on diseases not included in the WOAH Codes

Which of the options are principles of the WTO SPS Agreement applicable to sanitary measures?

- 28 Harmonisation ✓
- 10 Diversity ✗
- 28 No discrimination ✓
- 30 Transparency ✓
- 5 Protectionism ✗
- 5 Most trade restrictive ✗

Principles of the WTO SPS Agreement

- Harmonisation
- Equivalence
- No discrimination
- Transparency
- Scientific risk assessment
- Regionalisation
- Least trade restrictive

Which are examples of Good Regulatory Practices?

31 ✓

Risk assessment

26 ✓

Consultation with stakeholders

2 ✗

No notification of draft measures

7 ✗

Lack of communication between authorities within a country

Good regulatory practices are internationally recognised processes, systems, tools and methods to improve the quality of regulations

- Use of international standards
- Risk assessment
- Advance notification of draft measures
- Cooperation between customs and other border authorities and agencies within a country
- Consultation with stakeholders
- Review and evaluation
- Transparency

Legislation is key to achieving good governance and good regulatory practices.
Which Section of the Terrestrial Code has information on legislation?

5

Section 1. Animal disease, diagnosis, surveillance and notification

6

Section 3. Quality of Veterinary Services

16

Section 5. Trade measures, import/export procedures and veterinary certificates

5

Section 6. Veterinary Public Health

Chapter 3.4. Veterinary legislation

Defines 'hierarchy of legislation' as the ranking of the legal instruments as prescribed under the fundamental law (e.g. the constitution of a country). Respect for the hierarchy means that each legal instrument must comply with higher order legal instruments.

< What is the role of the Veterinary Service in international trade?

international trade by ensuring the health and safety of animals and animal products.

Disease prevention, surveillance and control. Early disease awareness system in place.

Veterinary service is very important. Because all diseases must be controlled.

Control measures

Control, profilactic, monitoring infection disease

Animal health animal welfare risk assesment

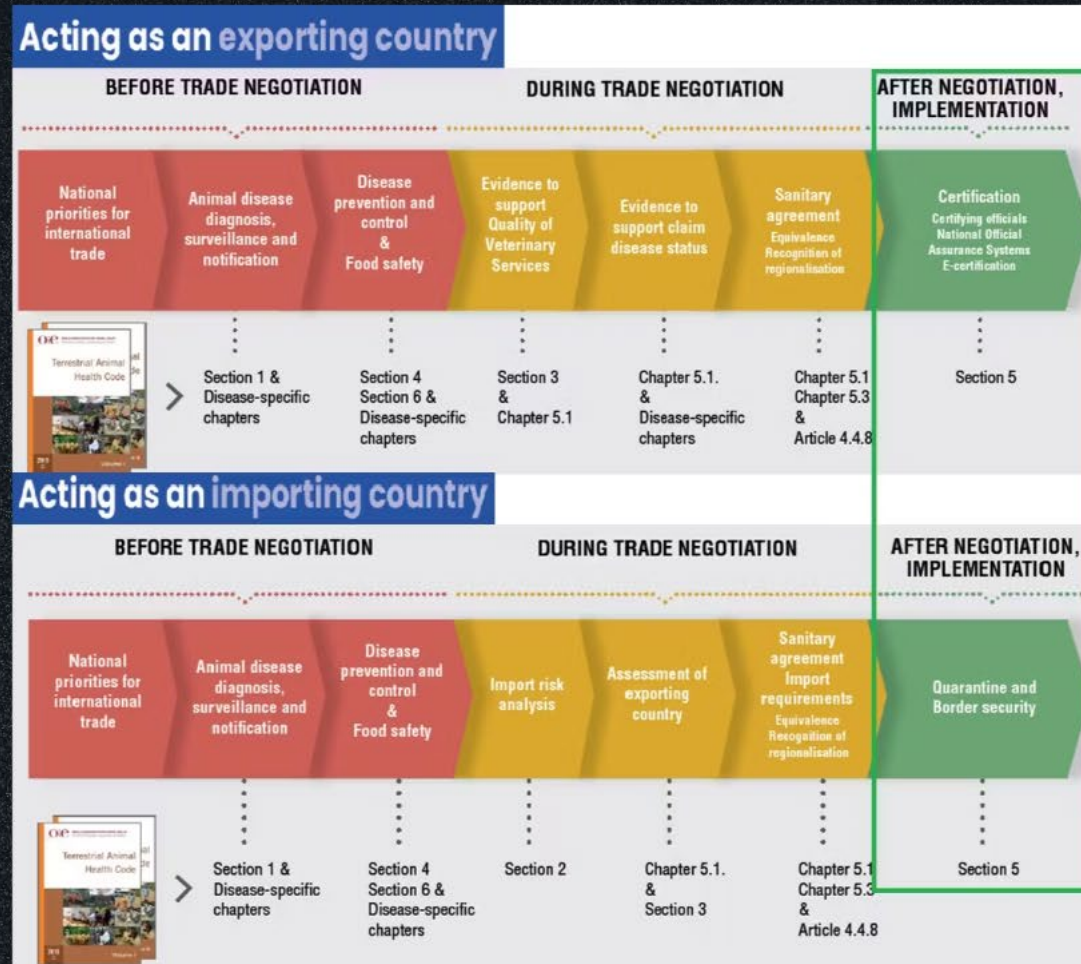

One health

Veterinary Services are the combination of governmental and non-governmental individuals and organisations involved in the implementation of WOAH international standards.

Veterinary Services provide the assurance of compliance with the conditions/measures required to minimise potential risks associated within traded commodities.

In an exporting country the Veterinary services design, implement and certify these measures.

In an importing country the Veterinary Services verify the compliance with legal requirements and participate in the prevention of illegal operations.

90% of WOAH Members are also WTO Members. WOAH related notifications account for what percentage of all WTO SPS notifications?

✓ 6

Accepted answers:

5 - 7

100

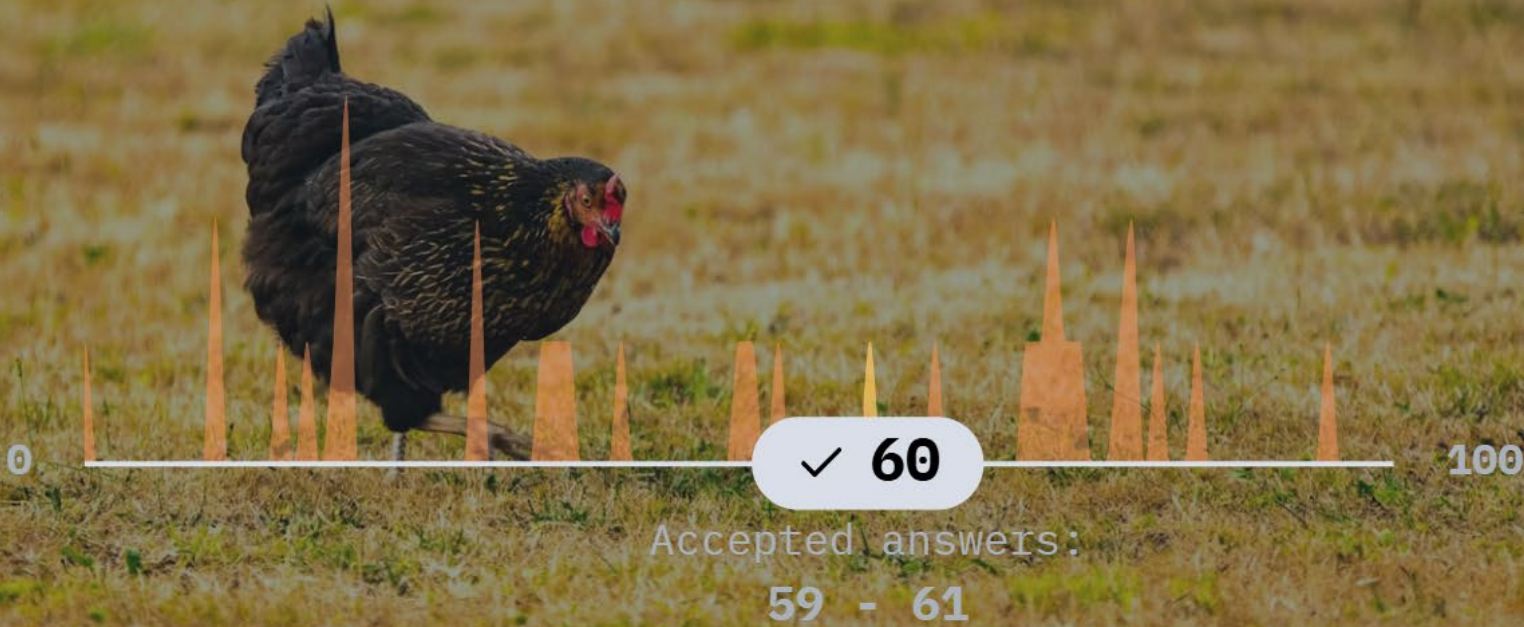

Press ENTER to hide correct
