ANNEX 2.....	9

➤ Deadline for submission:

➤ Channels of submission:

- Traditional forms: available on the WOAHP website and the WOAHP Delegates' website.

- **Disease Status Management Platform (DSMP)**

Form for the annual reconfirmation of the endorsement of the official control programme for foot and mouth disease (FMD) of OIE Member Countries

To be filled in, dated, signed by the Delegate and sent back to [disease.status@oie.int](mailto:disease.status@oie.int) during the month of November each year

YEAR \_\_\_\_\_ COUNTRY \_\_\_\_\_

In accordance with Resolution No. 15 adopted at the 83rd General Session and other relevant Resolutions previously adopted, Member Countries having an endorsement of their official control programme should update on the progress of the programme every year, during the month of November.

QUESTION	YES	NO
1. Have there been any significant changes affecting the performance of Veterinary Services in your country during the past 12 months?		
2. Is the endorsed programme applicable to the whole country?		
3. Have there been any changes in the record of regular and prompt animal disease reporting according to the requirements of Chapter 1.1.?		
4. Have there been any changes to the measures implemented to prevent or control FMD?		
5. Have there been any changes in the main livestock production systems and movement patterns of FMD susceptible animals and their products within and into the country?		
6. Have surveillance activities been carried out taking into account provisions Chapter 1.4. and Chapter 8.8.?		
7. Have there been any changes to the diagnostic capability and procedures?		
8. Have samples been regularly submitted to a laboratory for FMD confirmation?		
9. If vaccination is part of the control programme, have there been any changes on the compulsory vaccination?		
10. Have the timelines and performance indicators outlined in the endorsed official control programme been met?		
11. Have there been any changes to the emergency preparedness and contingency response plan to be implemented in case of FMD outbreak(s)?		
12. Have any changes in the epidemiological situation, increase of incidence of FMD or other		

# Submission of an annual reconfirmations: DSMP

WOAH encourages its Members to use the on-line system for the submission of annual reconfirmations

## Digitalisation in WOAHA

- ✓ Secure centralised system for submitting, archiving, tracking dossiers
- ✓ Facilitate exchange between WOAHA and Members
- ✓ Members' easy & secure access to their respective documents and reports
- ✓ Find all related links and guidance in one place
- ✓ Three components:
  - ❖ Annual reconfirmations -> launched for the November 2023
  - ❖ Status application ->
  - ❖ Self-declarations ->

**WORK IN PROGRESS**

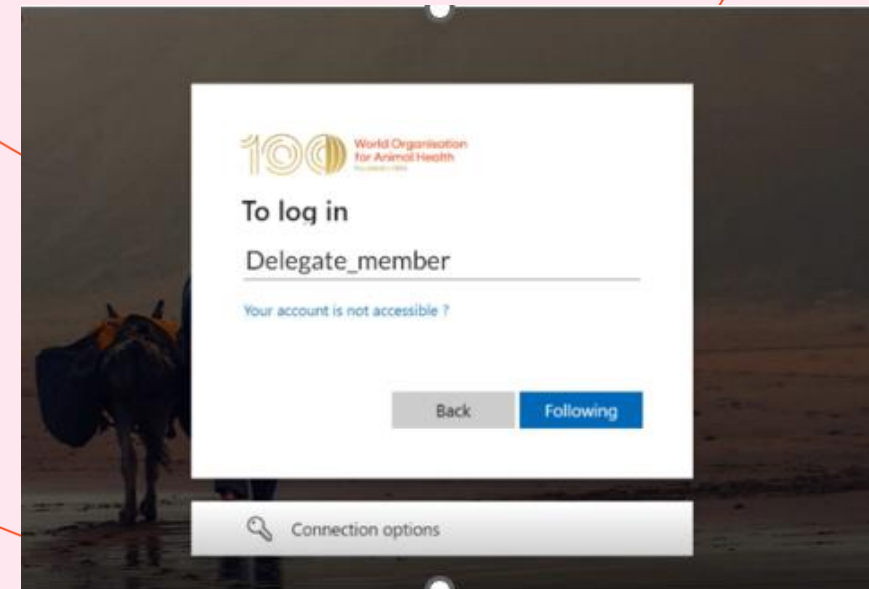

## ➤ Who can access the annual reconfirmation component of the Platform?

- WOAHA Delegates
- Appointed contact points of Members

## ➤ How can the Delegate log in to the Platform?

- <https://dsmp.woah.org/en-US/>
- using the Delegate's username and password (same credential to access all WOAHA applications e.g. WAHIS and Delegate Portal)

## How can the Delegate appoint contact points to be granted access to the Platform?

The screenshot shows the WOAH Disease Status Management Platform website. The top navigation bar includes links for Home, Annual Reconfirmations, Applications, Self-declarations, Support, English, and Delegate. The 'Delegate' dropdown menu is open, showing the option 'Appoint contact point'. Below the navigation bar, the main heading reads 'Welcome to WOAH Disease Status Management Platform'. A paragraph below the heading states: 'The Disease Status Management Platform serves as a secure, centralised system for archiving, tracking, searching, and submitting all necessary documents related to the official recognition and maintenance of animal health status, and the self-declaration of disease freedom.' Below this text are three columns, each with an image and a caption: 1. 'Annual reconfirmations of officially' with an image of people in a blue protective suit handling sheep in a barn. 2. 'Applications for official recognition of' with an image of a person in a white protective suit holding a clipboard in a laboratory setting. 3. 'Self-declarations' with an image of a person in a hat and shirt tending to a dog in a rural outdoor setting.

### Contacts point

[Create new contact](#)

- Only the Delegate can create a contact and appoint or deactivate contact points.
- A new contact can be created by clicking the 'Create New Contact' button on the right. You will need to add the person's first name, last name and email address to create a contact. Once the contact is created, it will be displayed in the list below.
- You will be able to appoint a contact to access the DSMP or deactivate its access by clicking the appropriate action under the 'Action' column.
- **No more than two contacts can be appointed to access the DSMP.** You will need to first deactivate one of the two contacts already appointed before appointing a different contact.
- When contacts are appointed for the first time, they will receive an email with a link to activate their account to access the DSMP. For appointed contact points that already have access to any other WOAHA applications, they will not receive an email and they can access the DSMP directly after being appointed by the Delegate.

All contacts associated with your country are listed below.

# Annual reconfirmation for FMD free country where vaccination is not practised<sup>17</sup>

*Documented evidence to be **systematically** provided for **questions 3 & 7***

## • Question 3:

**3. Is surveillance in accordance with Articles 8.8.40. to 8.8.42. in operation to detect clinical signs of FMD and demonstrate no evidence of infection with FMDV?**

### a) Early warning system :

**Basic info on surveillance to be provided by all Members regardless of whether they are historically free or not**

- Clinical suspicions: number of suspected cases, number of samples tested for FMDV (species, type of sample) testing method(s), final results, control measures during the investigation.
- Awareness campaigns/trainings/meetings/simulation exercises

### b) If FMD specific surveillance is in place:

- Clinical surveillance: target animal population, number of clinical inspections conducted for FMD, including number of animals clinically inspected and the results.
- Serological surveillance: target animal population, animals tested for FMDV, testing method(s), final results, follow-up of any positive reactors, interpretation of laboratory results

## Annual reconfirmation for FMD free country where vaccination is not practised<sup>18</sup>

*Documented evidence to be systematically provided for questions 3 & 7*

### • Question 7:

**7. If susceptible animals, their meat and other products are imported, are they imported in accordance with requirements at least as strict as those of in Chapter 8.8.?**

Documented evidence on the implementation and supervision of movement controls: Articles 8.8.12. to 8.8.41. should be considered, in particular:

- ✓ Article 8.8.12. (susceptible animals from an infected zone for slaughter)
- ✓ Article 8.8.16. (domestic ruminants and pigs from FMD infected country or zone with an official control programme).
- ✓ Article 8.8.24. - 8.8.26 (fresh meat of cattle and water buffaloes from FMD infected countries or zones where an official control programme exists)

Screening by WOAH (Status Department and WOAH RR/SRR)

## Assessment by the Scientific Commission

- Selected official disease status – **10% of annual reconfirmations**
- National official control programmes
- Other official disease status

Dear Member,

The annual reconfirmation form for FMD free zone without vaccination of RUSSIA has been validated.

The validated forms in PDF format are accessible from the Platform.

The maintenance of this status will be subject to approval through adoption of the relevant Resolution by the World Assembly of Delegates at the forthcoming General Session in May.

**Nota bene:** Annual reconfirmations selected for comprehensive review are validated after the February meeting of the Scientific Commission
