World Organisation
for Animal Health
Founded as OIE

Performance of Veterinary Services (PVS) Pathway

A continuous process aiming to sustainably improve compliance of Veterinary Services and Aquatic Animal Health Services with International Standards

The WOAAH Standards

CODES

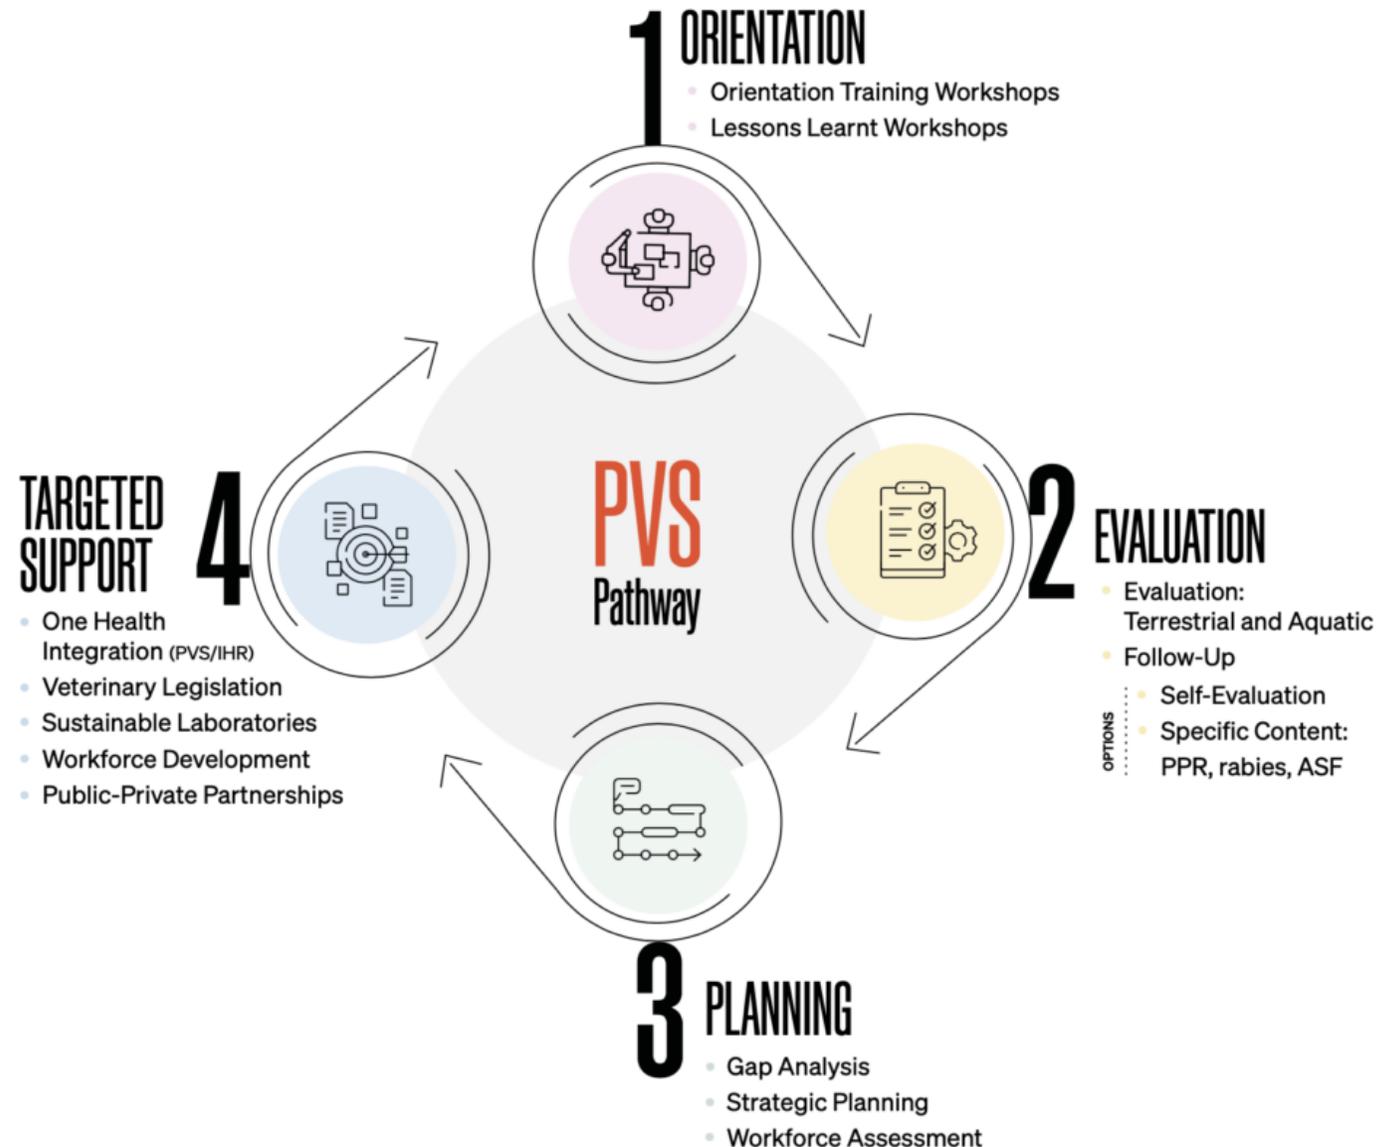

MANUALS

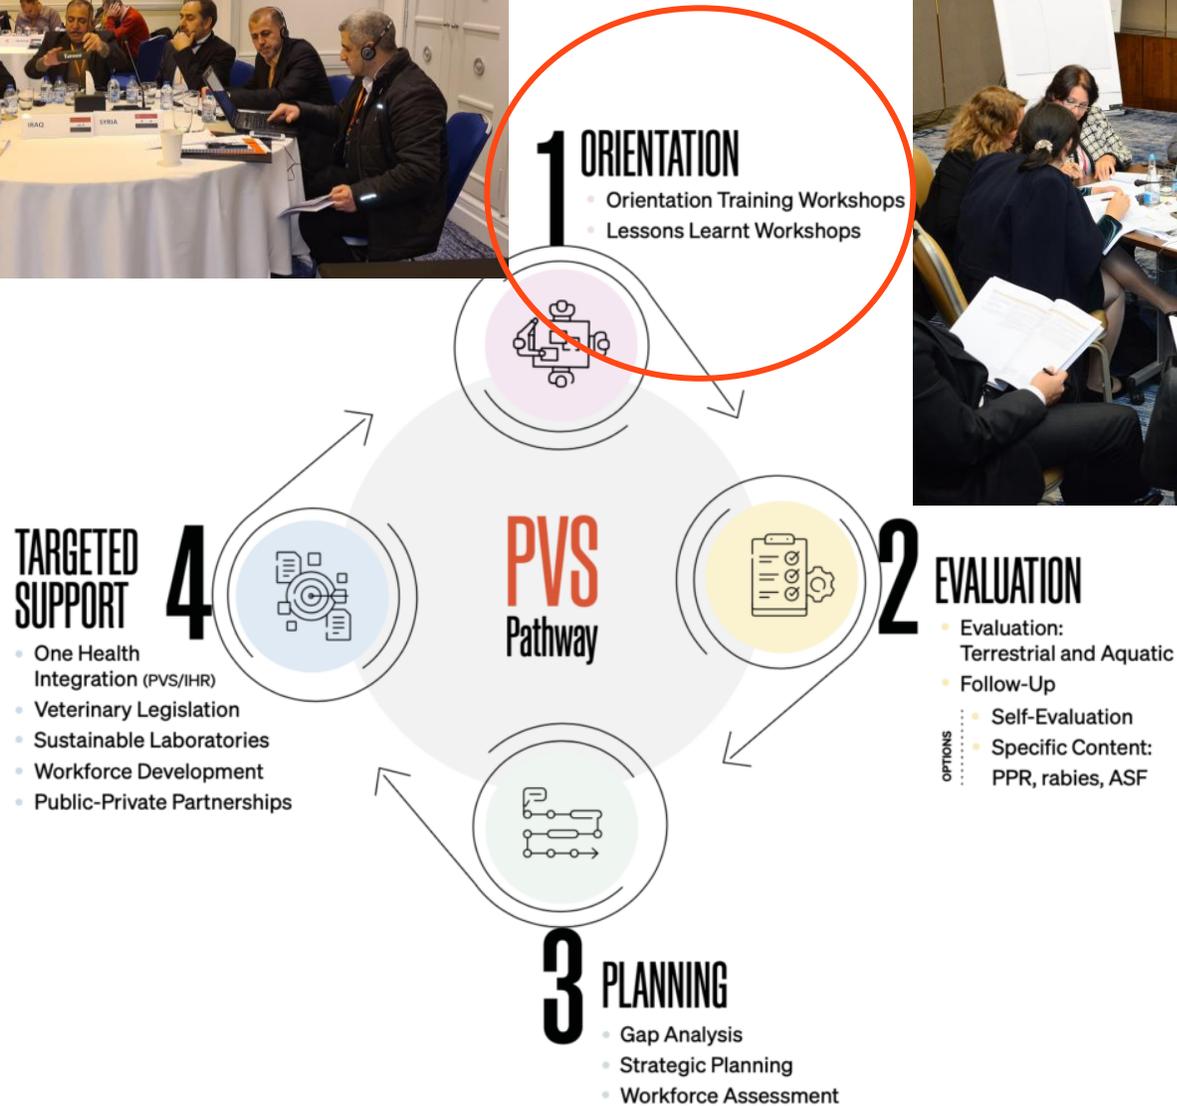

Standards to improve animal health and welfare
and veterinary public health

Performance of Veterinary Services (PVS) Pathway

- Comprehensive, multi-staged process for **sustainable planning** and **improvement** of Veterinary Services' (VS) capacities
- Supports greater **compliance** with WOAH International **Standards for** animal health and welfare
- Each step corresponds to specific **capacity-building** activities
- **Voluntary, country driven** process targeting internal systems and resources for sustainability
- **Strong uptake** – 148 countries, more than 600 reports

Performance of Veterinary Services (PVS) Pathway

1. ORIENTATION

Orientation Training Workshop Learning Objectives: Members and non-Members

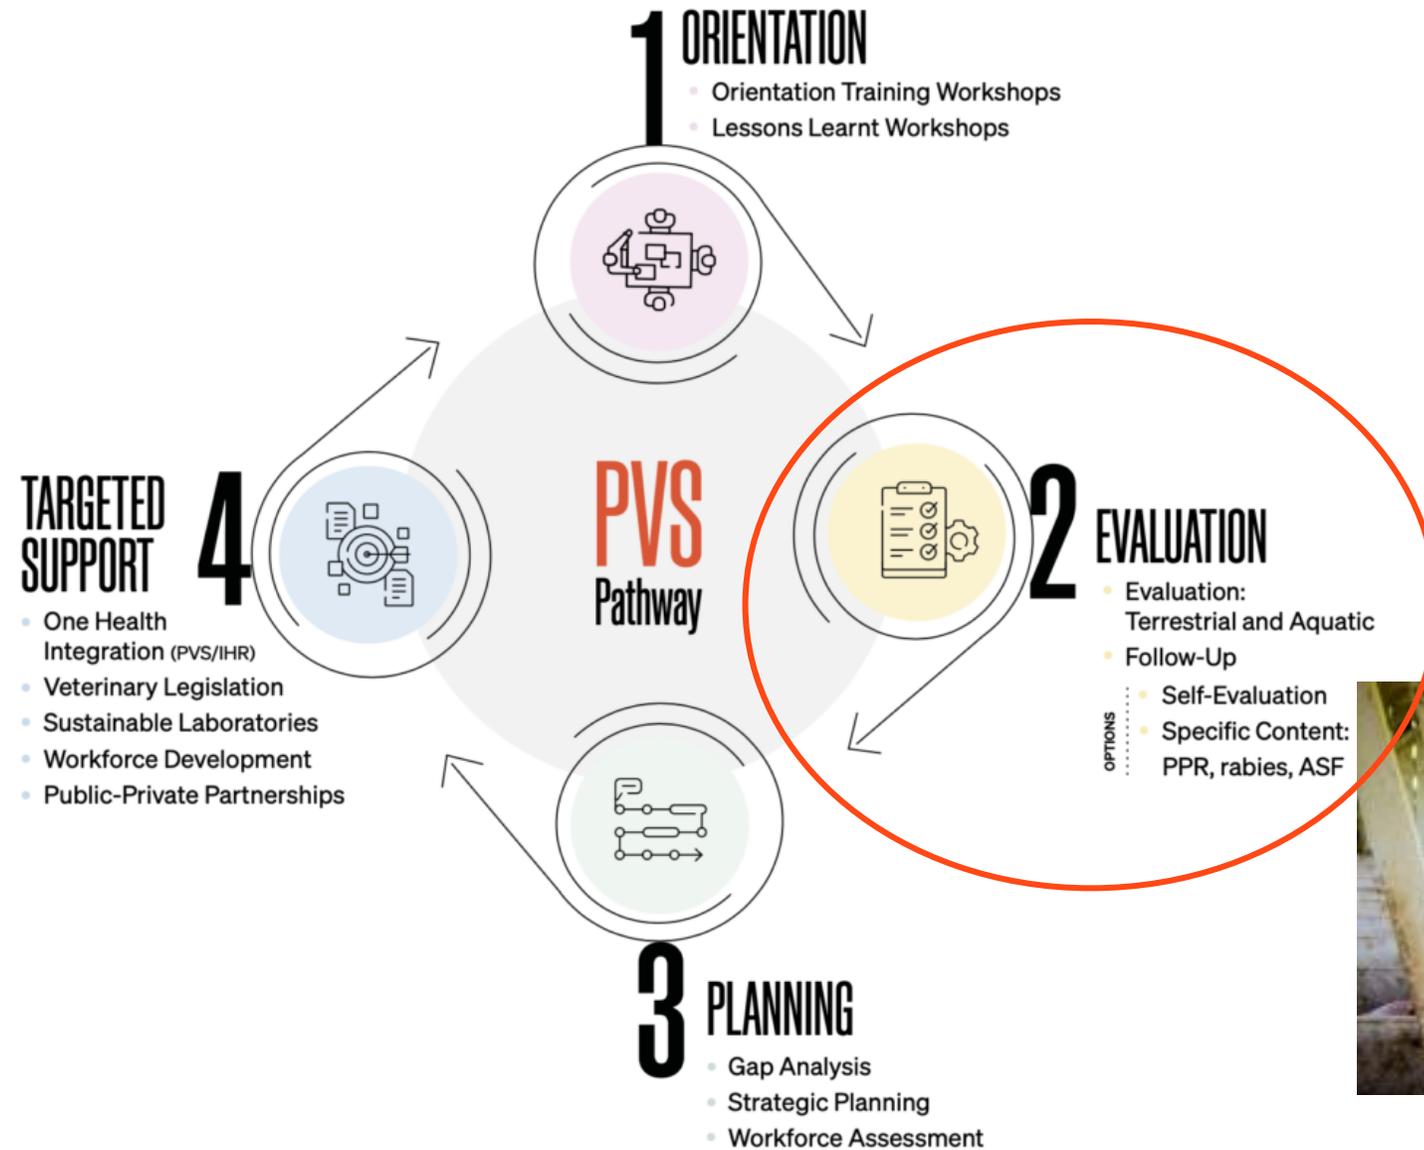

- *Understand and are more familiar with the PVS Pathway and its benefits, as well as the PVS Tool (2019) and PVS Tool Aquatic (2021)*
- *Describe the benefits in engaging in PVS Pathway Activities and support*
- *Better understand WOA and Experts' expectations for improved implementation*
- *Share lessons learned and experiences in the PVS Pathway*
- *Understand and use data and information contained in the PVS Pathway reports more effectively for action and advocacy*

Why we are all here today!

- Remote delivery
- E-learning phase
 - Webinar

2. PVS EVALUATION

2. PVS EVALUATION

- *Uses PVS Tool (2019) and (2021) against WOAHI International Standards*
- *1-3 weeks long, 2-4 Experts in Team, central & field visits*
- *When available, WOAHI funds Experts, Country funds domestic travel and support*
- *Peer-reviewed & country-approved report*
- *PVS Follow-Up mission = M&E framework*

NEW!

- Hybrid format
- PVS Specific content

Evaluation

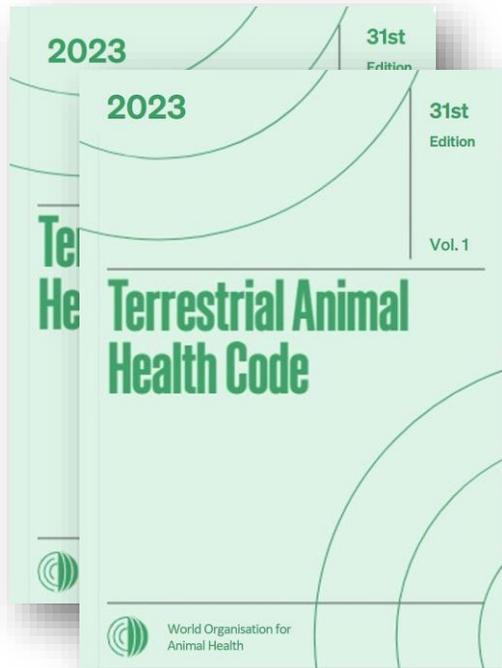

ПВС Оценка

- Внешний, независимый взгляд ПВС экспертов
- Основано на фактах и доказательствах
- Выявляет слабые и сильные стороны в соблюдении стандартов ВОЗЖ
- Предлагает рекомендации по улучшению показателей VS/AANS

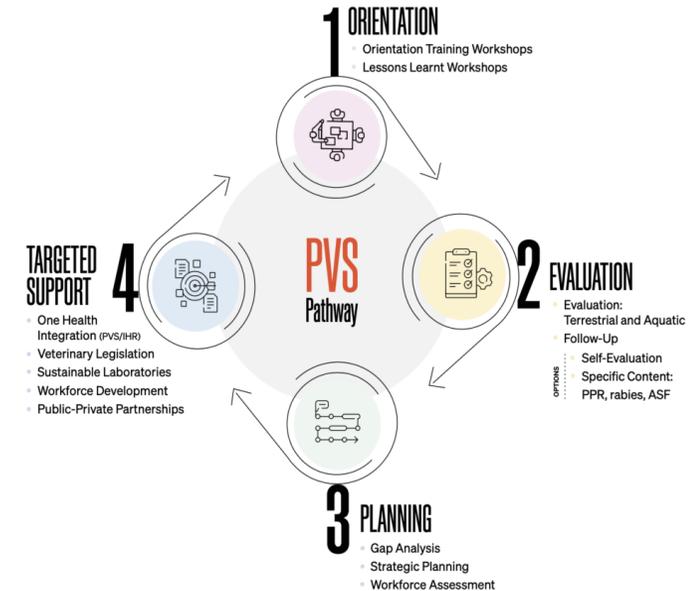

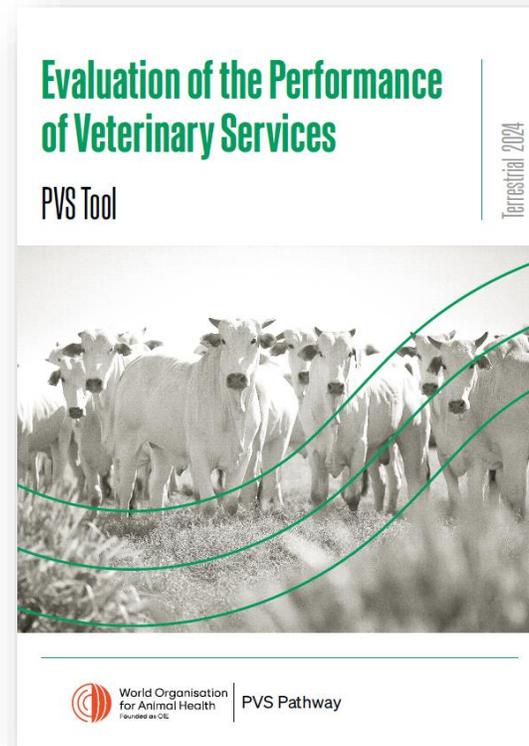

Основа для создания механизма регулярного мониторинга и контроля общего уровня эффективности с течением времени
Долгосрочное укрепление «горизонтальных» систем.
Цель процесса — наращивание потенциала.

3. PLANNING

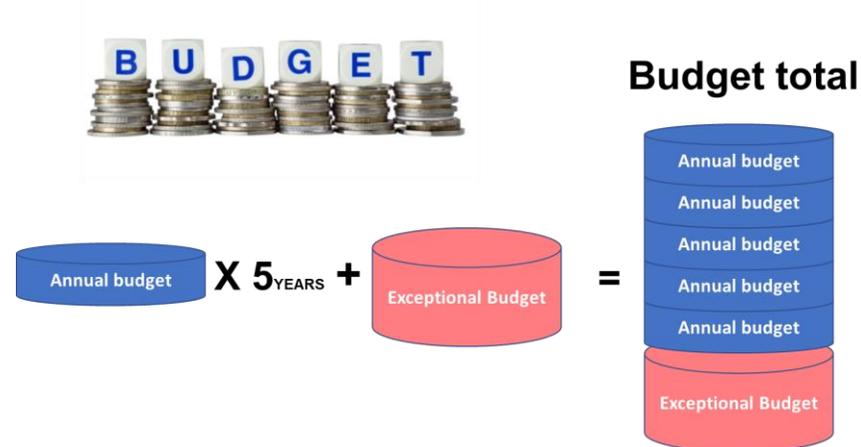

3. PLANNING

Objectives of the PVS Gap Analysis (PVS Costing Tool)

- *To determine and confirm country's VS priorities*
- *To determine activities to be carried out to achieve expected results*
- *To develop an indicative costing of the human and physical resources required for the effective and efficient implementation of the activities defined*
- *To support the preparation of national investment programmes*

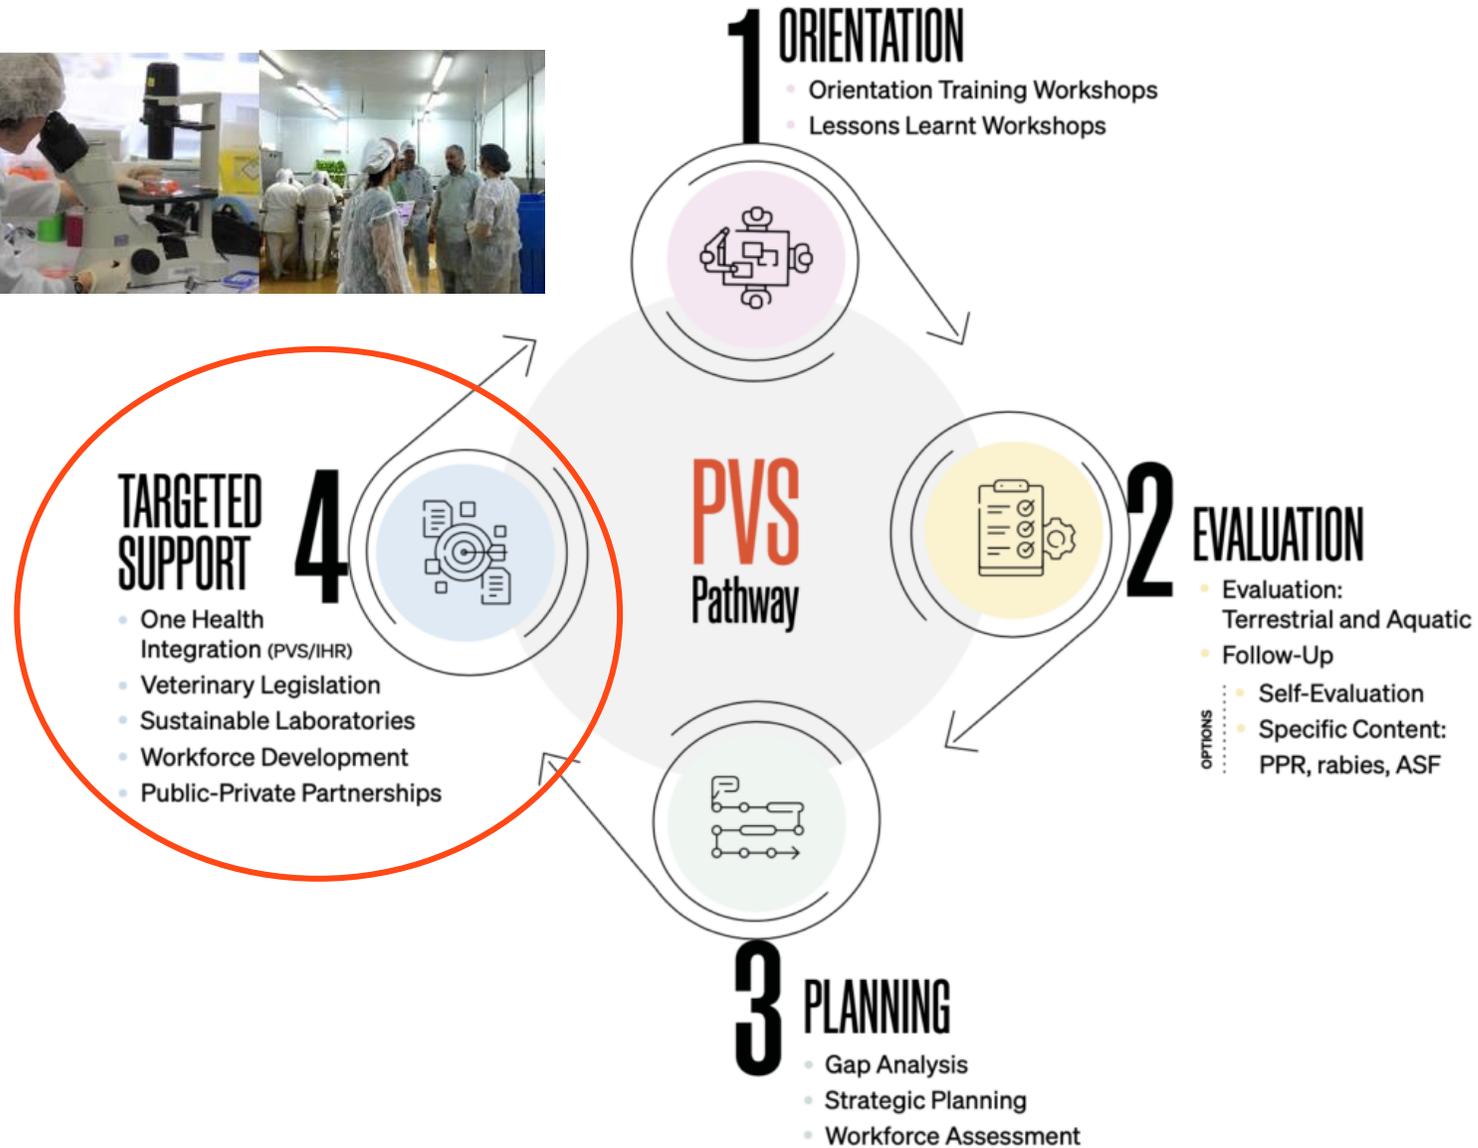

3. Планирование

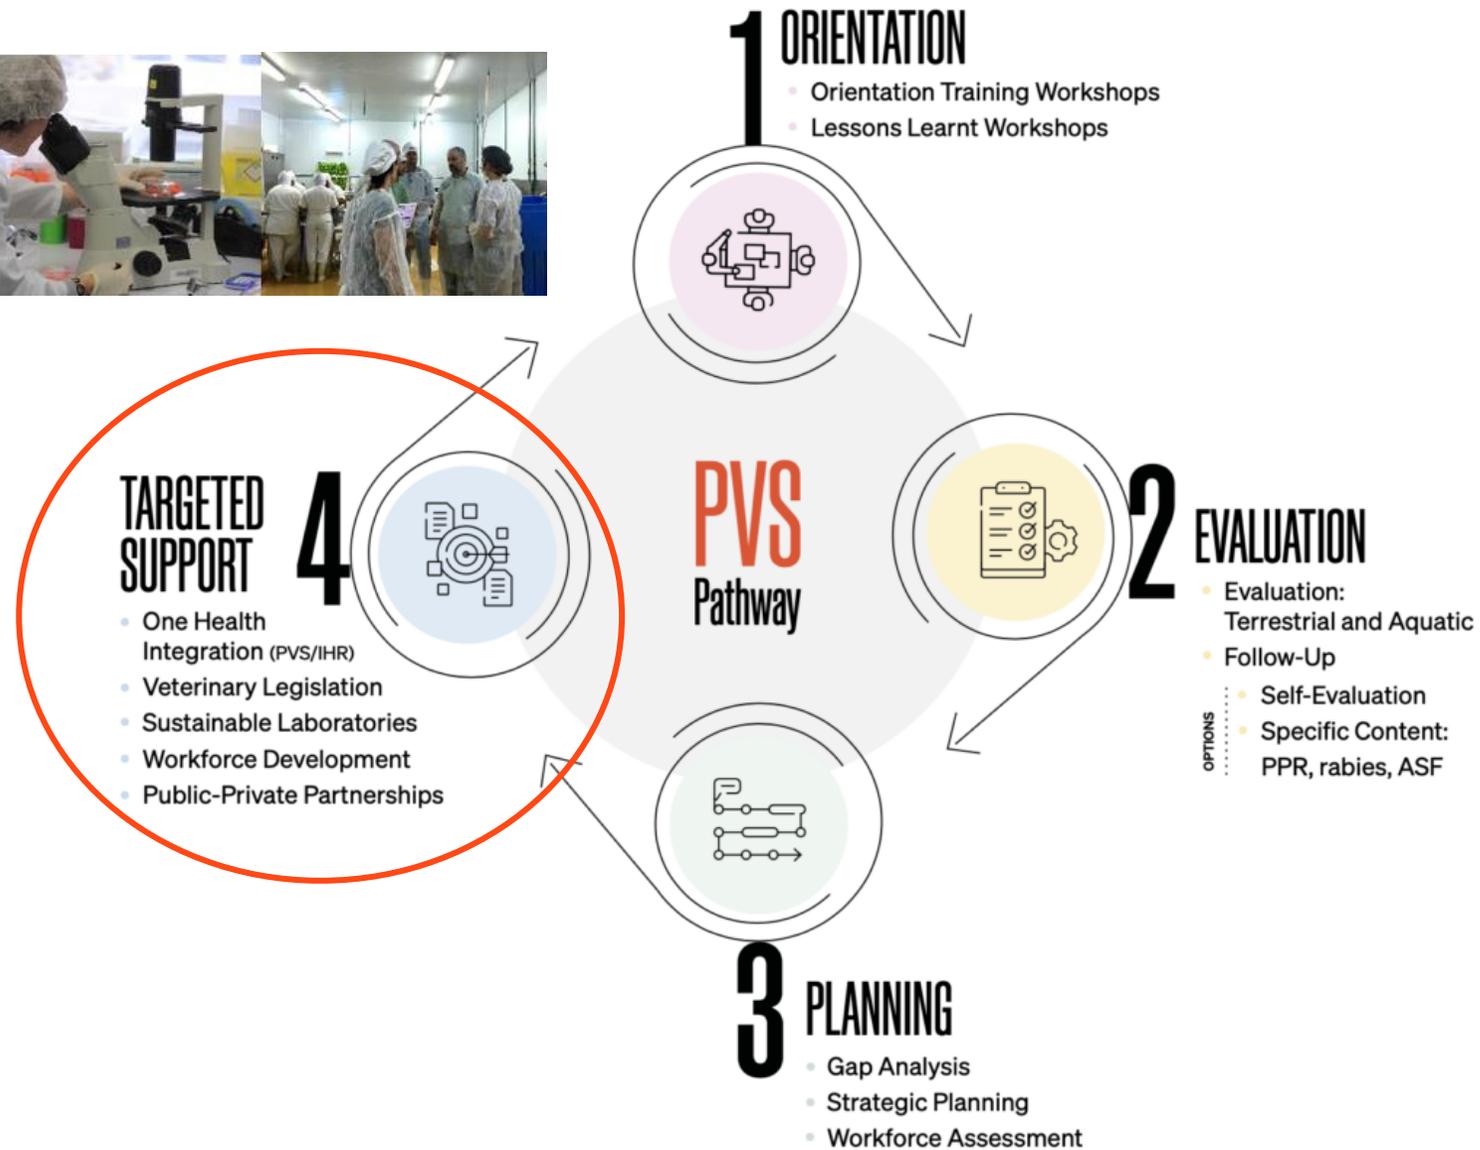

ПВС Программа также является инструментом мониторинга и оценки.

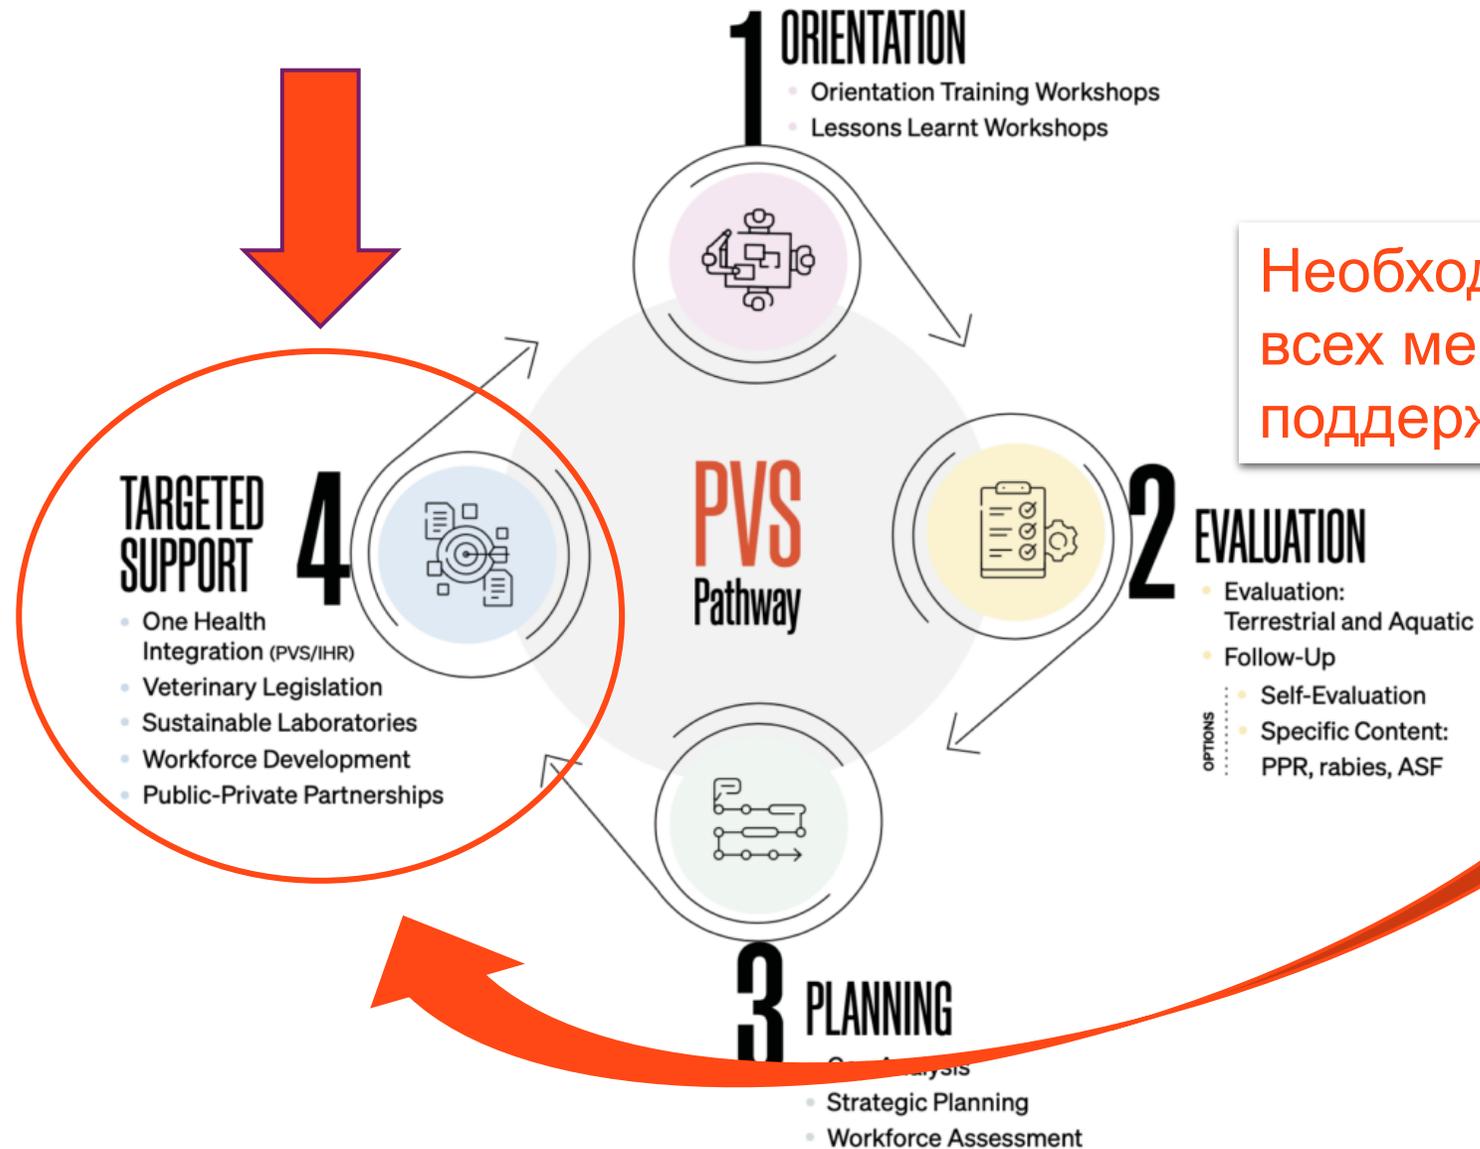

4. TARGETED SUPPORT

4. Целевая поддержка

4. Целевая поддержка

4. Целевая поддержка

• Remote delivery

• Remote and blended delivery

- **Программа поддержки ветзаконодательства ПВС**: предоставить странам возможность систематического пересмотра их законодательства в области ветеринарии. Этапы идентификации и согласования.
- **Миссия лабораторий устойчивого развития ПВС**: определить ресурсы, необходимые для создания устойчивой, эффективной и жизнеспособной национальной сети ветеринарных лабораторий.
- **МГП/ПВС НБВ (здравоохранение)**: анализ и совершенствование сотрудничества между секторами общественного здравоохранения и ветеринарии в области взаимодействия животных и человека.
- **Частно-государственное партнерство (ЧГП)**: оказать поддержку странам-участницам в разработке, если это целесообразно, устойчивых государственно-частных партнерств (ГЧП) для укрепления ветеринарных служб.
- **Развитие ветеринарных кадров**: определение потребностей в человеческих ресурсах с точки зрения компетенций, количества и распределения необходимого персонала. Включает анализ благоприятной среды: законодательства, регулирования и образования. Инструмент оценки трудовых ресурсов, поддержка учебных программ ПРБ, поддержка ВСБ.

- Что нового в программе ПВС?

PVS Pathway

The PVS Pathway for the sustainable improvement of national Veterinary Services and Aquatic Animal Health Services is our flagship capacity building programme. An independent and in-depth monitoring mechanism of the performance of these Services makes it possible to identify their strengths and areas for improvement, and to recommend solutions specifically adapted to each country for sustainable improvement and investment.

Overview Monitoring Performance Targeted Support Resources Reports

The Performance of Veterinary Services (PVS) Pathway empowers national Veterinary Services and Aquatic Animal Health Services by providing them with an extensive understanding of their strengths and weaknesses using a globally consistent methodology based on WOAHO international standards on animal health and welfare. It provides a useful external perspective that can reveal gaps, inefficiencies and opportunities for innovation.

PVS Reports

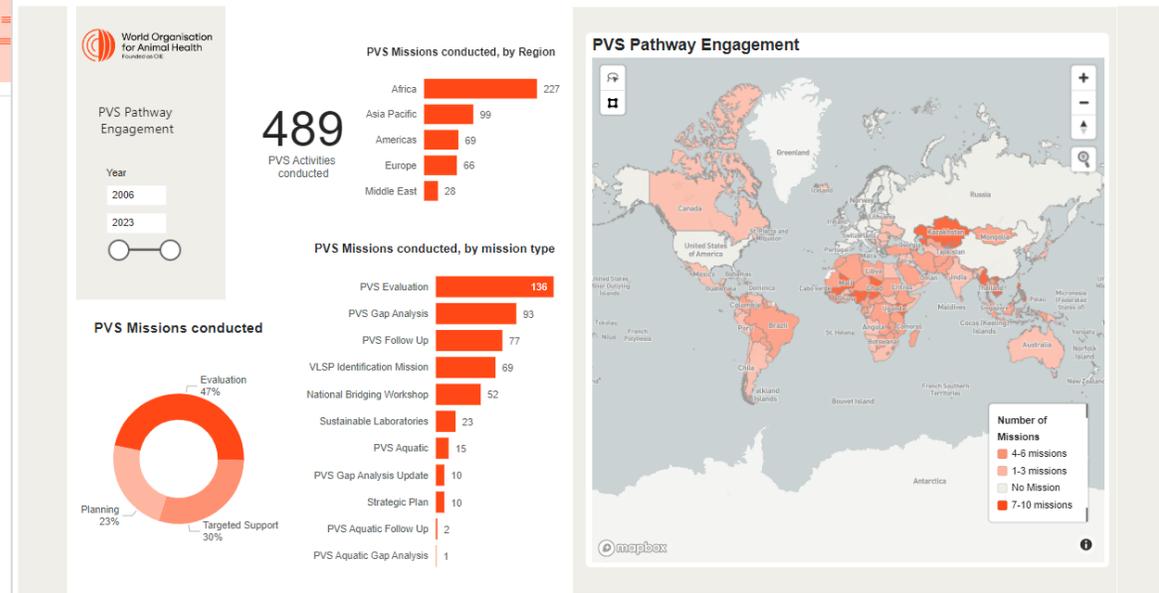

PVS Reports which are released for public distribution are available to consult. At the time of finalisation of each PVS Report, WOAHO Delegates are invited to choose the level of confidentiality they wish to attribute to each PVS Report. Other reports are released to be shared with WOAHO Partners & Donors only, or are designated as confidential with no distribution permitted, or may be shared through diplomatic channels to assist in their advocacy efforts. WOAHO respects the level attributed to each report by the Delegate and encourages greater transparency in the performance of veterinary services for better compliance with international standards and improved access to markets.

PVS Reports

A major output of many PVS activities is a report containing rich data and insights, presenting an objective evaluation of the performance of the Veterinary Services, depending on a particular topic of interest. The findings are endorsed by the country and the report may be made publicly available depending on the country's preference.

PVS Reports are used to:

- Enhance Veterinary Services and public health by implementing its recommendations and provide Veterinary Services strengthened capacity
- Capacity building performance at regional and national level to address common challenges and share common goals
- Develop projects for capacity building initiatives to obtain financial resources and grants and measure progress and trends over time
- Justify advocacy and shape policy and strategy at the ministerial level to change legislation, policy and regulations
- Support internal auditing, quality management, and a basis for inspections
- Increase visibility and reporting from partners and investors
- Aid in formation of trade partners & agreements

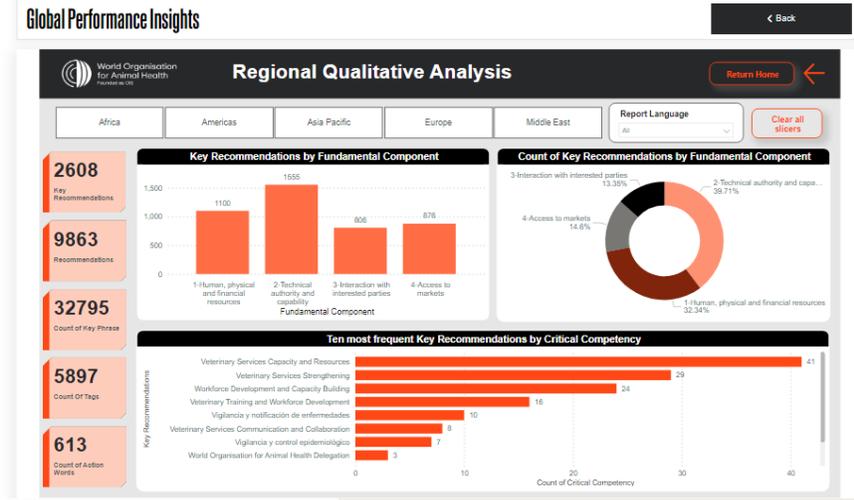

The PVS Reports Repository can be used to easily access any PVS Report, according to the confidentiality status assigned to it and apply several filters, such as region, country, level of advancement, and Critical Competency, among others. Additional documents will be added to the repository in the upcoming stages of the PVSIS development.

Search and View

Data Extraction and Analysis

WOAH aims to extract a maximum amount of insights from each PVS Evaluation Report (i.e. Evaluation, Performance, Specific Content, Adults Evaluation and Adults Performance) from the report extracted and forward it to Members and PVSIS database 2023 in the preparation of any PVSIS Technical Advice and the development of each PVSIS Report.

This is why WOAH has developed a natural language processing and natural language model to extract, process, and analyse at least from the strength, weaknesses, and recommendations sections from Critical Competency of each of the 2023 PVSIS Evaluation Report in a 2023.

Using the latest technology, other processes are needed together to extract and model data for insights shared and to explore by stakeholders of the Veterinary Services. These insights on key findings to better understand the most common weaknesses across Critical Competency to provide advice and put better for the improvement of the performance of the Veterinary Services.

Data Confidentiality

In the development of the PVS Information System (PVSIS), WOAH has taken its commitment to the confidentiality of PVSIS reports and data very seriously. Given the importance of the PVSIS Pathway, a voluntary and confidential engagement is important to Members. WOAH has taken its commitment to ensure the confidentiality of data by PVSISIS every PVSIS report.

In addition, WOAH has taken its commitment to ensure the confidentiality of PVSIS reports and data by PVSISIS every PVSIS report. In addition, WOAH has taken its commitment to ensure the confidentiality of PVSIS reports and data by PVSISIS every PVSIS report.

Trust, Engagement Preservation and Data Confidentiality Framework

Member's trust of handling of past data

WOAH's ability to process it

WOAH Data Stewardship Focus on Insight Sharing

Added value of PVSIS to encourage engagement/management

Partner's need for insight

Confidentiality of PVS Reports

Confidentiality status can be changed by Delegate

Data contained in PVSIS reports may be used in:

- Individual Country Reports (also only by the Member)
- Global and Regional Performance Comparison
- While maintaining strict confidentiality of identifiable data

Public PVS Reports: Published by WOAH Website

PVS Reports for partners and Donors: Determined by WOAH and WOAH Partners

Confidential PVS Reports: WOAH Confidential

wildlife

II-6 Disease prevention, control and eradication	Appoint World Organization for Animal Health national focal point for wildlife, as wildlife plays a crucial role in the control of domestic animal diseases, and ensure their regular participation in World Organization for Animal Health regional focal point seminars.
II-4.A Passive surveillance, early detection and epidemiological outbreak investigation	Consider making PPR a notifiable disease in wildlife.
I-6.B External Coordination (including the One Health approach)	Design a procedure to improve external coordination with Ministry of Forestry and Water Affairs and other organisations involved in wildlife management.
II-4.B Active surveillance and monitoring	Develop mechanisms to improve active surveillance of relevant diseases in the production sector, wildlife and for public health;
II-4.B Active surveillance and monitoring	Ensure that the national Veterinary Control and Research Institute has the full testing protocol for detecting antibodies against Peste des Petits Ruminants in wildlife sera and increase the collection of sero-surveillance data from wild life;
II-6 Disease prevention, control and eradication	Establish proper collaboration with wildlife authorities, with the support of World Organization for Animal Health national focal point for wildlife. since wildlife plays a crucial role in the control of domestic

Какой вклад сможет принести программа оценки ПВС моей стране?

- Механизм регулярного **мониторинга** эффективности с течением времени, направленный на достижение соответствия международным стандартам ВОЗЖ

- Лучшее понимание сильных и слабых сторон ВС/СОЗВЖ
- **Высококачественные рекомендации** для формирования мышления и стратегического планирования
- Определение **приоритетов, задач, мероприятий и ресурсов**, необходимых для достижения целей, и представление **обоснований** для внутренней/внешней **финансовой поддержки**

Какой вклад сможет принести программа оценки ПВС моей стране?

Конкретные потребности в **наращивании потенциала**, для которых ВОЗЖ может оказать поддержку: Лаборатории, Законодательство, Государственно-частное партнерство, Развитие трудовых ресурсов, Ветеринарные парапрофессионалы...

Приведенные аргументы **озвучивают проблемы**, с которыми сталкиваются сотрудники и заинтересованные стороны, и ресурсы, в которых они нуждаются

Приведенные аргументы **подтверждают** необходимость создания надежной и функциональной национальной ветеринарной службы и охраны здоровья водных животных

Какой вклад сможет принести Система оценки ПВС моей стране?

Знакомство с **международными экспертами**, имеющими опыт работы с различными системами, их сильными и слабыми сторонами, дает участникам миссии возможность задавать вопросы и получать советы

Повышение **прозрачности** санитарного статуса с учетом внутрирегиональной и **международной** торговли

Выявление и снижение рисков: Позволяет выявить слабые места и принять меры до того, как они превратятся в серьезные проблемы

Биологическая безопасность, профилактика и готовность: Позволяет проанализировать возможности для предотвращения нежелательных результатов и быть готовым к их возникновению

Data Confidentiality

In the development of the PVS Information System (PVSIS), WOAH has taken its commitment to the confidentiality of PVS Reports and data very seriously. Given the importance of the PVS Pathway, a voluntary and confidential engagement is important to Members. WOAH has taken its commitment to ensure the confidentiality of data shared by Members to every PVS Report.

In addition, WOAH has taken its commitment to ensure the confidentiality of PVS Reports and data by ensuring that the data is not shared, stored, and/or the beginning of the processing in 2023. In addition, WOAH will be able to reduce the use of data, increase the use of data, increase the use of data through digitalization, and reduce assessment time, for Members that in handling PVS Reports and data will increase with the development of PVSIS.

This is the confidentiality framework that will help to ensure the confidentiality of PVS Reports and data to provide value and insights for Members and to ensure data is used.
