

WORLD ORGANISATION FOR ANIMAL HEALTH Protecting animals, preserving our future

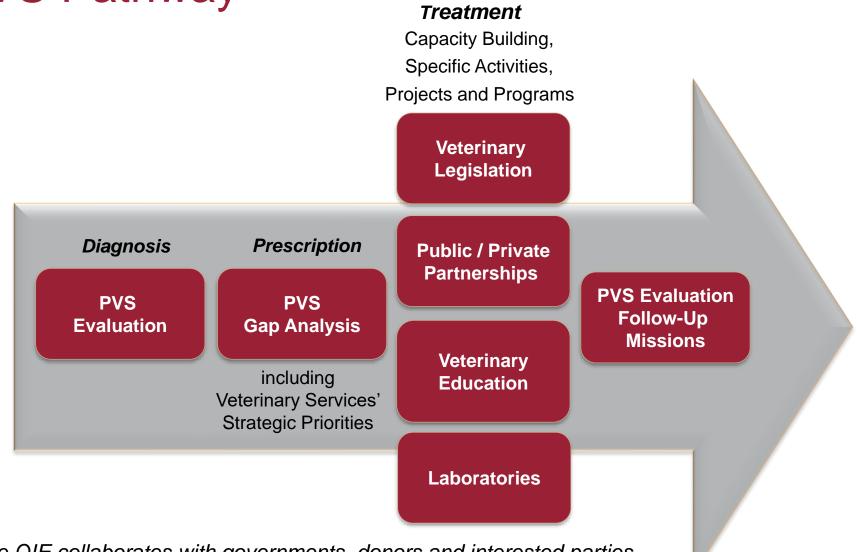

The OIE PVS Pathway in Europe

Dr François Caya, Head of the OIE Regional Activities Department Sixth GF-TADs for Europe Steering Committee meeting Brussels, 1 October 2015

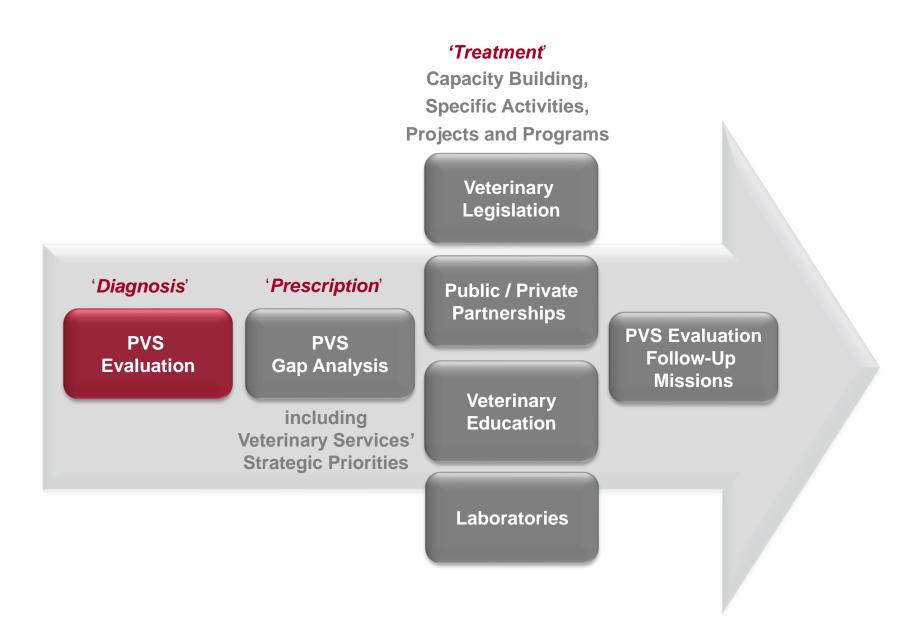

The OIE PVS Pathway

is a continuous process aiming to sustainably improve the compliance of Veterinary Services with international standards.

PVS Pathway

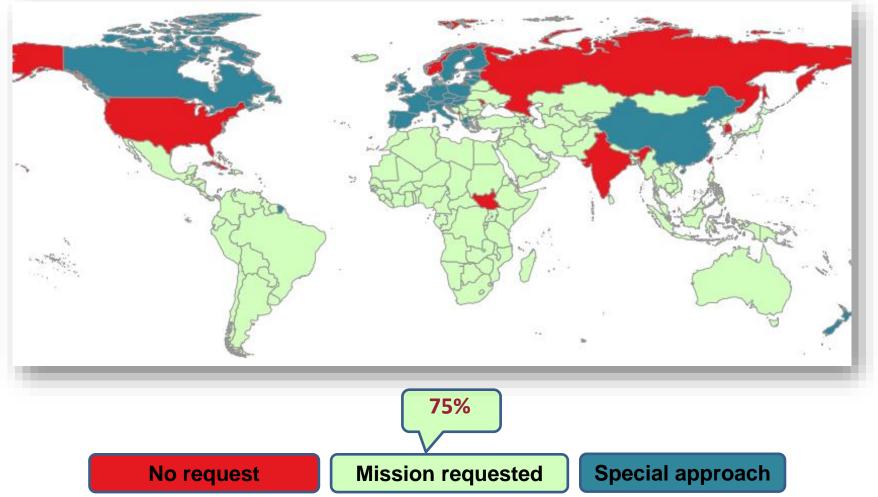

The OIE collaborates with governments, donors and interested parties

Methodology based on standards

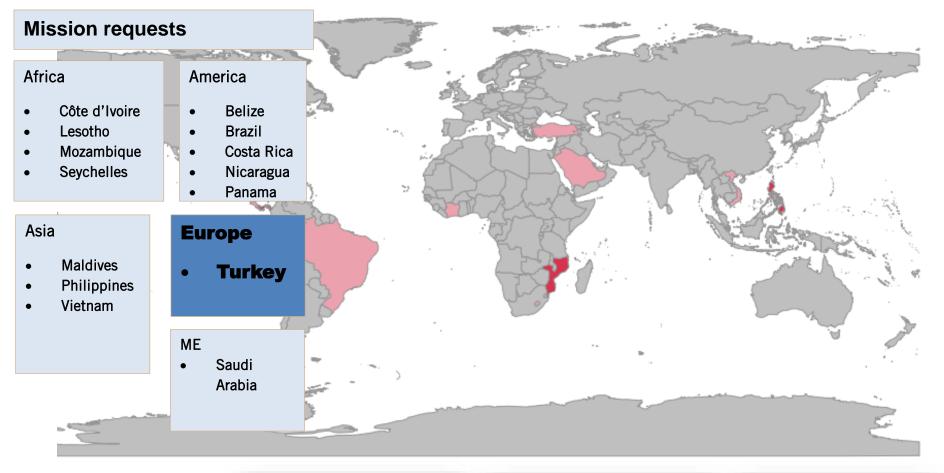

PVS Evaluation – Terrestrial 23 September 2015

PVS Evaluation – Aquatic

23 September 2015

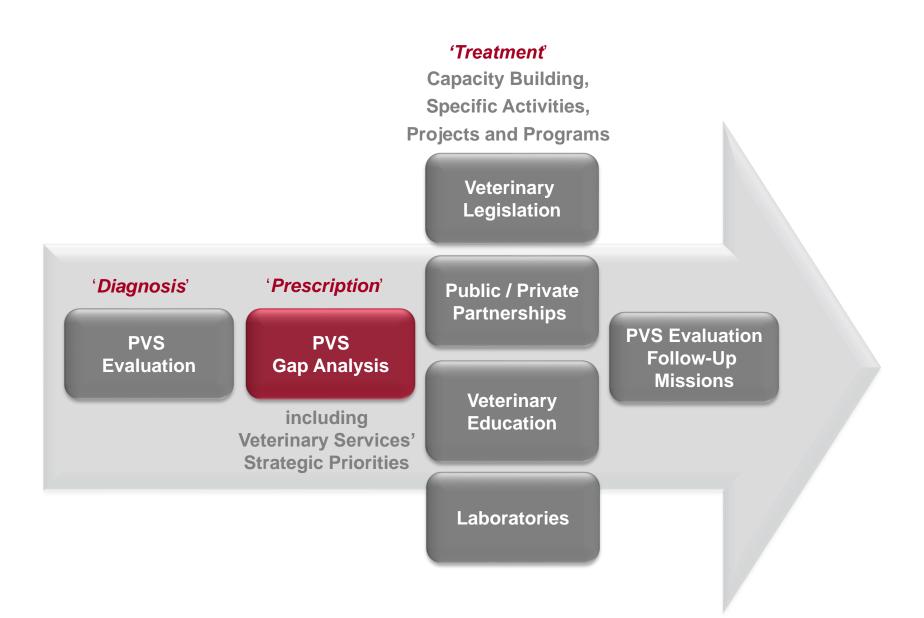

Mission requested

Mission completed

Report Available

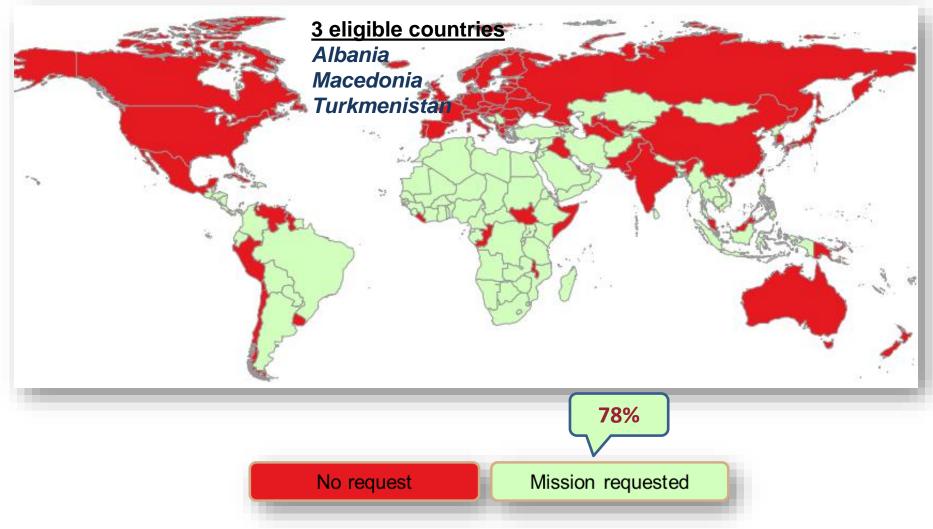

PVS Gap Analysis (PVS Costing Tool)

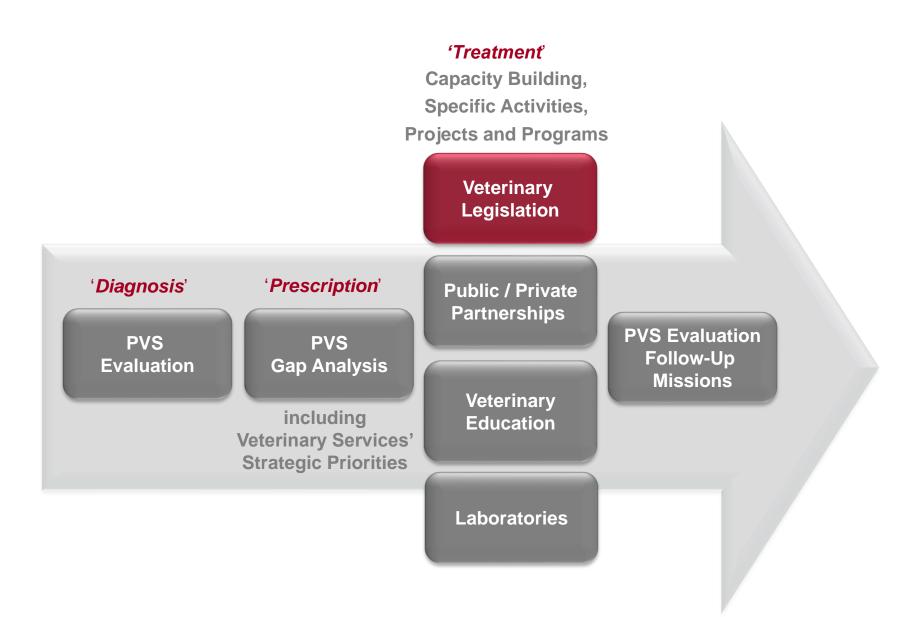

Objectives:

- > To determine and confirm country priorities
- To determine activities to be carried out to achieve the expected results
- Develop an indicative costing of the human and physical resources required for the effective and efficient implementation of the activities defined
- To support the preparation of national investment programmes

PVS Gap Analysis (PVS Costing Tool) 23 September 2015

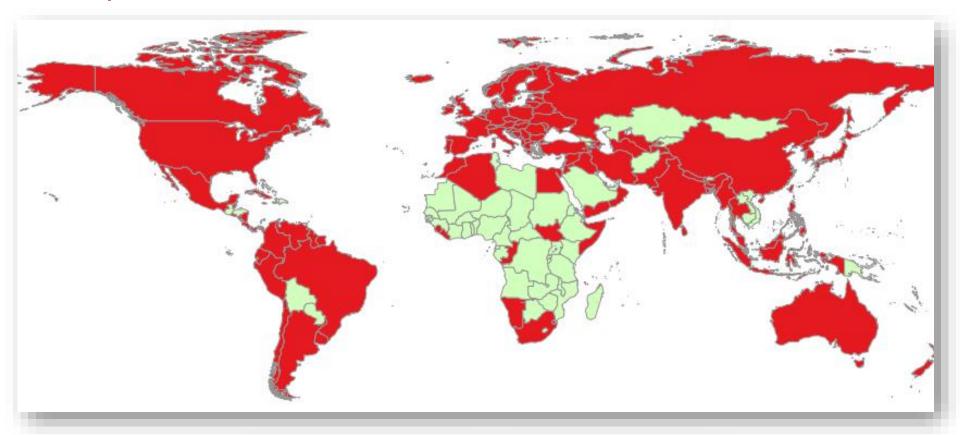

Veterinary Legislation Support Programme

- > Aims to support Member Countries develop a strong legislative framework in line with Chapter 3.4. Veterinary Legislation
- > Consists of two phases:
 - > 1 Veterinary Legislation Identification mission aimed at obtaining a detailed picture of the current state of veterinary legislation in the country
 - 2 Middle term support to review and modernise national veterinary legislation (ad hoc national taskforce) on the basis of national priorities

PVS Veterinary Legislation Identification 23 September 2015

Other PVS Pathway treatments

- > PVS Pathway Laboratory Mission: identify the resources required for a sustainable, efficient, effective and viable national veterinary laboratory network.
- Laboratory Twinning Programme: Builds laboratory expertise for the most important animal diseases and animal health-related topics, providing a more balanced north-south distribution of advanced expertise.
- Veterinary Education Twinning Programme: Fosters quality veterinary education through the exchange of teachers and students
- Veterinary Statutory Body Twinning Programme: Develops the competencies and capacities of VSBs so that they can fulfill their responsibilities under the Veterinary Authority, whilst complying with the international standards of the OIE

Twinning - Veterinary Education

- > Projects underway (with funding through the OIE):
 - USA (UMN) Thailand (CMU)
 - France (ENVT) Kazakhstan (KazNAU)
 - USA (TCSVM) Bangladesh (CVASU)
 - UK (RVC) Jordan (JUST)
 - Australia (UQ) Vietnam (NLU)
 - USA (OSU) Ethiopia (UOG)
 - France (VetAgroSup) Ukraine (BNAU)

Projects endorsed by the OIE (without funding through OIE):

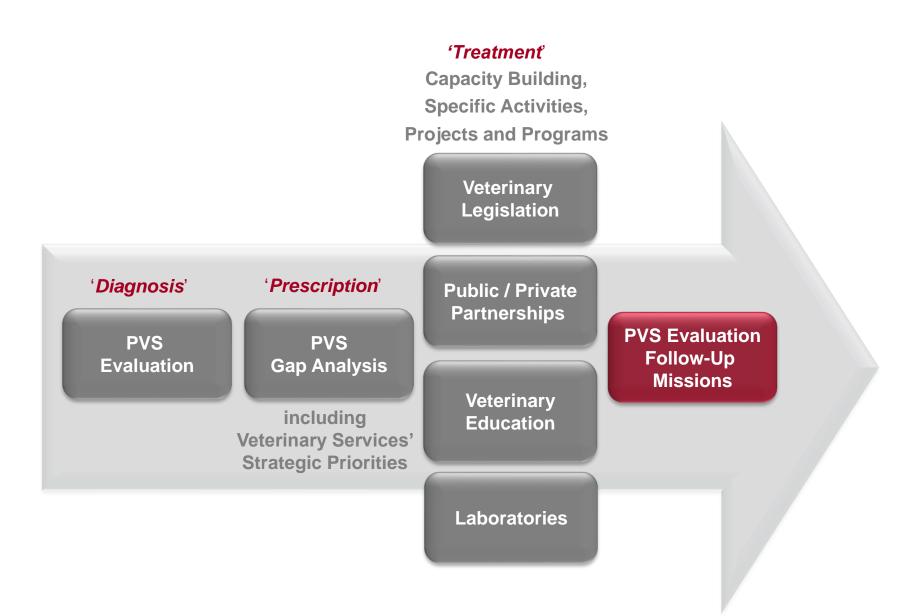

- New Zealand (Massey) Sri Lanka (Peradeniya)
- > 9 projects under development and expressions of interest

Twinning - Veterinary Statutory Body

- > Projects underway:
 - France Russia
- > Expressions of interest:
 - New-Zealand Vietnam
 - Italy Cuba
 - Nigeria Parent VSB yet to be established
 - Thailand Parent VSB yet to be established
 - Kyrgyzstan Parent VSB yet to be established

Twinning - Laboratories

- > 26 projects completed
- > 34 projects underway
- > 10 projects approved and waiting to start ('in the pipeline')
- > 3 most popular topics
 - Avian influenza and Newcastle disease (10)
 - Brucellosis (8)
 - Rabies (6)

PVS Evaluation Follow-up missions

- > Initial country PVS Evaluation = baseline
- Regular country PVS Evaluation missions are useful to assess, monitor and accompany progress made
 - > change in legislation,
 - > Modifications in structure chain of command
 - > Impact of national and international investments
 - > Improved compliance with OIE standards, etc.
- > Every [3 to 5] years

OIE Member Countries Experience with the PVS Pathway - Questionnaire

Introduction

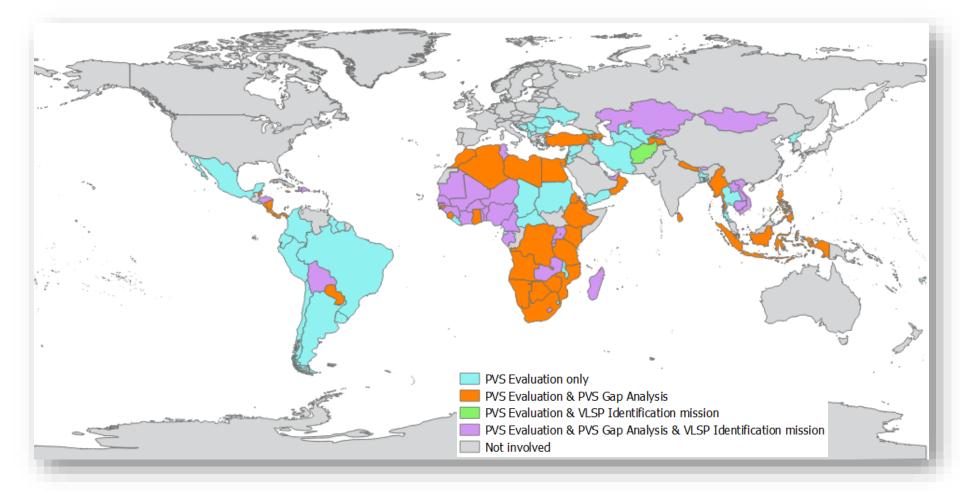

- "OIE Member Countries' experience with the PVS Pathway"
- Objective:
 - To identify impact, measure satisfaction, and capture success stories related to the PVS Pathway experience of OIE Member Countries.
- From 23 February to 21 July, 2015.

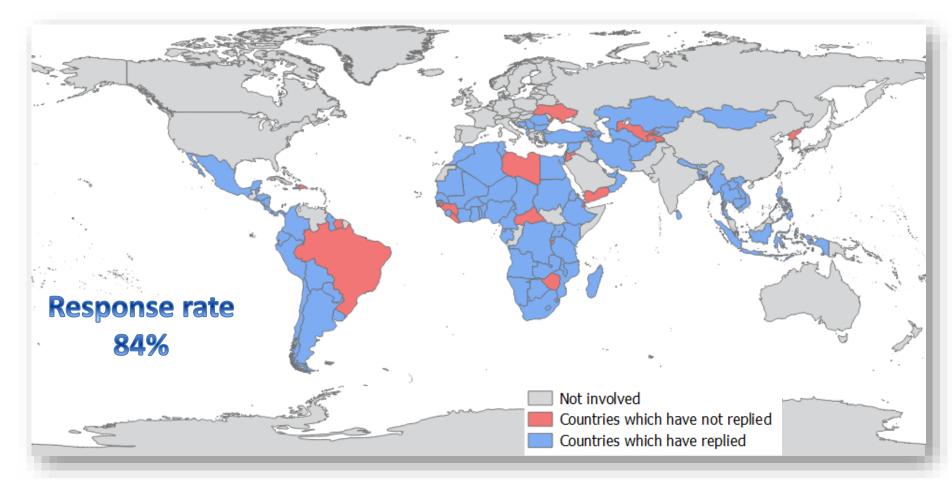

Members Countries that have received the questionnaire

- Trigger = at least one PVS Evaluation mission done => 119 MC
- 4 groups:
 - PVS Evaluation mission done only
 - PVS Evaluation and PVS Gap Analysis missions done
 - PVS Evaluation and Veterinary Legislation Identification missions done
 - PVS Evaluation, PVS Gap Analysis and Veterinary Legislation Identification missions done

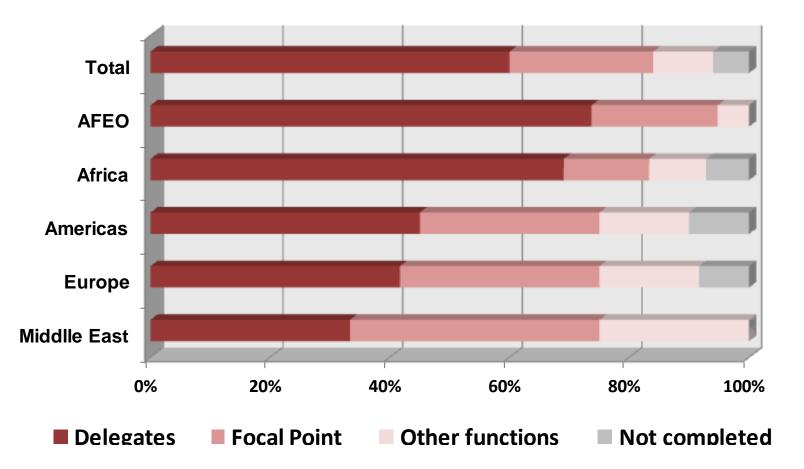

Members Countries that have received the questionnaire - Global

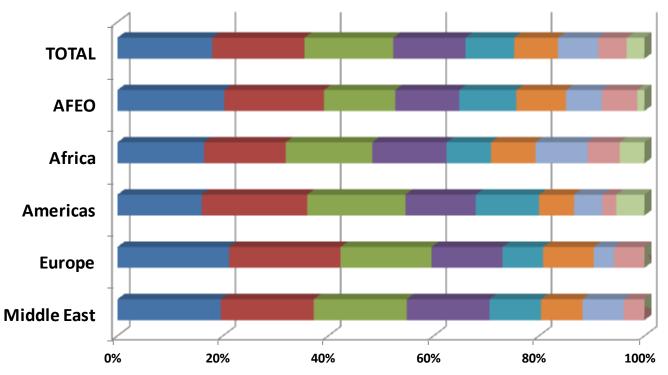

Member Countries that have replied to the questionnaire - Global

Who responded to the questionnaire?

Sharing of the PVS Evaluation report

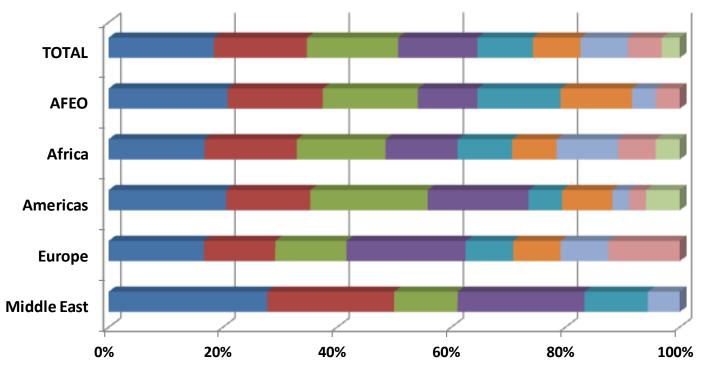

- Senior Officials in your Ministry
- Persons in-country/colleagues who participated in the PVS Evaluation mission
- OIE National Focal Points
- Other colleagues in the Veterinary Services who did not participate in the PVS Evaluation mission
- Interested parties (stakeholders) in the private sector
- Representatives of donor organizations
- Senior Officials in other Ministries
- Representatives of NGO or donor-funded projects in the livestock sector
- Others

Suggestions on improving the PVS Pathway

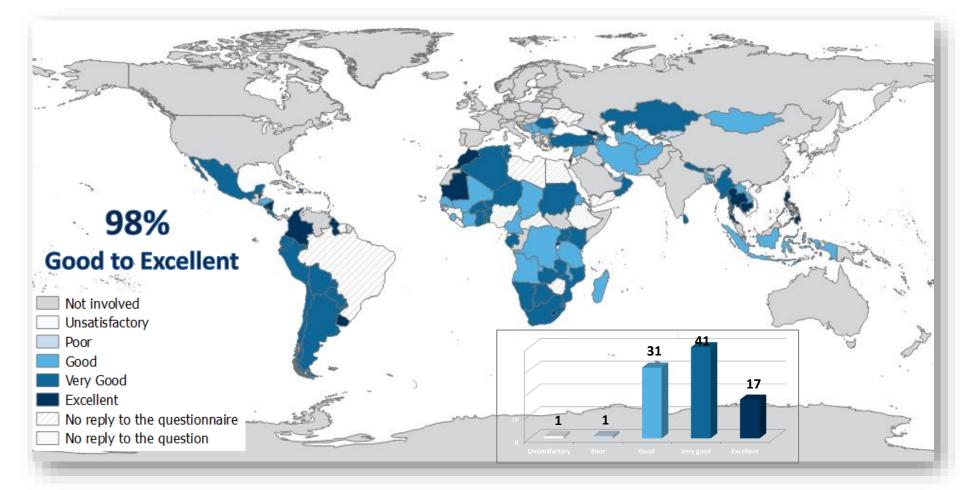

In-country training on the use of PVS tools by VS staff

- Communication with a PVS Pathway contact person appointed by the Delegate to manage and report progress on PVS Pathway's mission recommendations
- Translation of PVS Pathway mission reports into local languages for more effective dissemination
- Addition of new tools or 'treatments' to the PVS toolbox

Overall experience of the Member Countries with the PVS Pathway - Global

Oie

World Organisation for Animal Health · Protecting animals, Preserving our future | 39

Conclusion

- In depth analysis of the results
- Publication in the OIE Bulletin
- Presentation to the donors
- Refinement of the existing PVS Pathway tools
- Development of new tools if needed
- Focus on the next steps
 - PVS Evaluation Follow-up mission
