Country progress with development of a National Action Plan on AMR

Chapter 2

Multi-Partner Trust Fund Tajikistan Project

AMR Multi-Partner Trust Fund

The Antimicrobial Resistance (AMR) MULTI-PARTNER TRUST FUND

Combatting the rising global threat of AMR through a One Health Approach

Country Proposal Submission TAJIKISTAN

- **6 Outputs/31 actions**

- ✓ **Output 1: Develop and implement surveillance of AMR**

- Expand the existing AMR surveillance in bacteriological laboratories
- Raise awareness among veterinarians and farmers of passive surveillance

- ✓ **Output 2: Provide laboratory training**

- Establishing an integrated surveillance of ESBL producing E. coli
- Provide training on AMR testing for central and regional veterinary labs

- ✓ **Output 3: Monitor AMU/AMC**

- Launch of OIE data collection on antimicrobials intended for use in animals

AMR Multi-Partner Trust Fund

The Antimicrobial Resistance (AMR) MULTI-PARTNER TRUST FUND

Combatting the rising global threat of AMR through a One Health Approach

Country Proposal Submission TAJIKISTAN

- ✓ **Output 4: Provide support to strengthen systems .**
 - International classifications of antimicrobials in human and animal
 - Complete the tripartite legal assessment
 - Identify priorities for legal reform in the country

- ✓ **Output 5: Develop and implement standards for biosecurity**
 - Implementation of biosecurity, good management in animal husbandry
 - Strengthen Tajik capacity to control OIE-listed diseases

- ✓ **Output 6: Information campaigns, workshops and training courses**
 - Awareness campaigns targeting different audiences on prudent AB use
 - Broadcasting on AMR/AMU through TV and radio program
 - Promote behaviour change on good hand hygiene in community
 - Training modules and workshops for education on AMR

Thank you for your attention
