ASF CONTROL MEASURES in the Czech Republic

GF TAD, 23. 11. 2021

ASF occurrence closed to CZ border

The Czech Republic remain ASF free

Emergency veterinary measures applied on the whole Czech territory:

- **Intensive hunting** of wild boars for the whole year, some prohibited hunting methods are authorised
- Ban on **feeding** wild boars, restricted baiting (20 kg/1 baiting site/50 ha of hunting grounds)
- Ban on feeding domestic pigs with catering waste and **kitchen waste**
- Ban on imports of wild boar „**trophies**“ from countries with ASF occurrence
- Ban on using **hay and straw** from countries with ASF occurrence

Passive surveillance in wild boars continues - wild boars found dead on the whole territory (**finder reward of 80 €**)

Passive surveillance in domestic pigs continues – on-farm deaths, ASF suspicion cases, abortions

Emergency veterinary measures for the border area:

- Buffer zone with intensive hunting
- Applied for one year now

Coordination meetings in the region – hunters, foresters, breeders, veterinarians, regional officers, the Police, the Fire Rescue Corps.

On central level – 4 Oct 2021 Minister of agriculture convene ASF coordination meeting for all concerned parties.

Cross border – official veterinarians from DE, PL and CZ

ASF – information campaign

Státní veterinární správa

🇨🇪 Pozor!

Státní veterinární správa a Ministerstvo zemědělství České republiky informují:

Od roku 2014 se v Evropě rozšiřuje vysoce nakažlivý africký mor prasat a ohrožuje milióny domácích i divokých prasat. Tato nemoc, která není pro lidi nebezpečná, se přenáší potravinami. **Odhazujte proto, prosím, zbytky potravin pouze do uzavíratelných nádob na odpadky!**

🇬🇧 Warning!

Highly contagious African Swine Fever has been spreading through Europe since 2014 and is now a threat for millions of domestic pigs and wild boar. This disease, which is not dangerous for humans, can be transmitted by food. **Please make sure that all leftover food is put in sealed waste containers!**

🇩🇪 Achtung!

Seit 2014 breitet sich die hochansteckende Afrikanische Schweinepest in Europa aus und bedroht Millionen Haus- und Wildschweine. Lebensmittel können diese, für den Menschen ungefährliche, Krankheit übertragen. **Bitte werfen Sie daher Speisereste nur in verschlossene Müllbehälter!**

🇵🇱 Uwaga!

Od roku 2014 na terenie Europy rozprzestrzenia się w wysokim stopniu zakaźna choroba – afrykański pomór świń – stanowiąc zagrożenie dla milionów sztuk hodowlanej rasy chlewnej oraz pogłowia dzików. Ta niebędąca zagrożeniem dla człowieka choroba może być przenoszona także przez żywność. **Dlatego prosimy wyrzucać resztki żywności wyłącznie do zamkniętych pojemników na śmieci i odpady!**

🇷🇺 Внимание!

С 2014 года в Европе распространяется очень заразная африканская чума свиней, представляющая угрозу для миллионов домашних и диких свиней. Это не опасное для человека заболевание может передаваться через продукты питания. **Поэтому просим Вас выбрасывать остатки пищи только в закрытые мусорные контейнеры!**

🇷🇺 Atenție!

Din anul 2014 se răspândește în Europa pesta porcină africană extrem de contagioasă care amenință milioane de porci domestici și mistreți. Prin alimente se poate transmite această boală care pentru om nu este periculoasă. **De aceea vă rugăm să aruncați resturile alimentare doar în recipiente de gunoi care pot fi închise!**
